enzymes like lysins or depolymerases of prophage or lytic phage origin which may be released into the environment exert a consequential influence on the natural balance in bacterial ecosystems Phages and individual recombinant enzymes with antibacterial properties are utilized to modulate bacterial populations This approach proves relevant in infection treatment food preservation and the eradication of bacteria including biofilm from various surfaces Understanding the evolutionary ecological interactions between bacteria and phages will not only facilitate the application of phage therapy but also enhance the utilization of products derived from phages In this Research Topic we welcome Original Research Reviews Mini Reviews Methods Perspectives and Opinions in the following areas Prevalence and ecological significance of bacteriophages influencing bacterial population biodiversity and abundance The use of bacteriophages and phage enzymes to modulate and eradicate bacteria in various niches including the natural and clinical environment industries and microbiome Distribution and characteristics of prophages in terms of bacterial diversity **Berkeley Technology Law Journal** ,2002 **Warfare**

State James T. Sparrow,2011-08-04 Although common wisdom and much scholarship assume that big government gained its foothold in the United States under the auspices of the New Deal during the Great Depression in fact it was the Second World War that accomplished this feat Indeed as the federal government mobilized for war it grew tenfold quickly dwarfing the New Deal s welfare programs Warfare State shows how the federal government vastly expanded its influence over American society during World War II Equally important it looks at how and why Americans adapted to this expansion of authority Through mass participation in military service war work rationing price control income taxation and the war bond program ordinary Americans learned to live with the warfare state They accepted these new obligations because the government encouraged all citizens to think of themselves as personally connected to the battle front linking their every action to the fate of the combat soldier As they worked for the American Soldier Americans habituated themselves to the authority of the government Citizens made their own counter claims on the state particularly in the case of industrial workers women African Americans and most of all the soldiers Their demands for fuller citizenship offer important insights into the relationship between citizen morale the uses of patriotism and the legitimacy of the state in wartime World War II forged a new bond between citizens nation and government Warfare State tells the story of this dramatic transformation in American life

Scholarship of education and human rights in diversity Erika M. Serfontein,Charl C. Wolhuter,Shantha Naidoo,2023-03-01 The objective of this book is to highlight the need and value of imbuing the dynamic intersections between education human rights and diversity with perspectives from the Global South The chapters approach key intellectual conundrums of the day from a Global South perspective to reflect a credible scholarly footprint in Africa and in the SADC region This is deemed timely considering that the field is deeply embedded in western Eurocentric and overall Global North dominance This book will provide a Southern perspective on education and human rights in diversity by unpacking each of the following key areas in the intersection between education human rights and diversity from a Southern

perspective comparative international perspectives citizenship education human rights literacies human rights education pedagogy learner discipline in schools aggression and bullying in schools addressing human trafficking by means of human rights education social justice and the decolonisation of human rights and human rights education *Performance Design* Dorita Hannah, Olav Harsløf, 2008 Explores the speculative and projective acts of designing performance and performing design This work offers a range of performative expressions across disciplines where design artefacts objects gestures images occasions and environments are aligned to performance through notions of embodiment action and event
