Popular Science ,1891-10 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **The Official Index to the Times** ,1968 **Catalogue of Printed Books** British Museum,1891 **Peel's Bibliography of the Canadian Prairies to 1953** Ernest Boyce Ingles,Bruce Braden Peel,Norman Merrill Distad,2003-01-01 The Prairie Provinces cover Alberta Saskatchewan and Manitoba **Planning and Ecology** R. D. Roberts,T. M. Roberts,2013-11-11 Professional planning is commonly defined as an activity which is concerned with the rational allocation or exploitation of resources for man s maximum short and long term benefit The science of ecology is the study of the basic components of these resources soil water air etc and their inter relationships with living organisms Planning and ecology therefore have many common interests and as such have long been associated in resource management This association was for example reflected as early as the 19th century in the writings of Patrick Geddes the progenitor of modern town planning whose training as a biologist led him to re interpret the phenomena of urbanization in ecological terms Geddes 1886 Since the time of Geddes the place of ecology has declined in planning circles as other professions and considerations initially public health and engineering latterly economic and sociological have become more central The reasons for this shifting emphasis are three fold First they reflect changing social attitudes and aspirations in the post war period Secondly many other professions and persuasions agriculturalists foresters industrialists etc became organized as pressure groups and helped shape public attitudes and governmental actions Thirdly and by far the most important reason is the prevalence of misconceptions about ecology Too many people perhaps misled by the debate surrounding the environmental movement equate ecology with conservation In reality conservation is but one component part of ecology **The Limits of Labour** David Bright,2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary s reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left

the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s **Mark Lane Express** ,1892 **Official Index to the Times** ,1948 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement **"The" Athenaeum** ,1842

Palmers' Index to the Times Newspaper ,1889 **Index and Finding List of Serials Published in the British Isles, 1789-1832** William S. Ward,2014-07-15 Growth of interest in the periodical literature of the past has emphasized increasingly the need for specialized hand lists a need which the American Union List of Serials the British Union Catalogue of the Periodical Publications in the University Libraries of the British Isles and other existing indexes cannot answer To satisfy one area of this need William S Ward has compiled a near definitive index and finding list of periodicals and newspapers of the English Romantic period In it are reflected the holdings of almost eleven hundred American Canadian and British libraries and newspaper offices The volume is also the first to list titles and library locations of all the newspapers magazines and other serials published in the British Isles during the years between the French Revolution and the Great Reform Bill Norton's Literary Gazette and Publishers' Circular ,1851 Nature Sir Norman Lockyer,1876 *Utopian Universities* Miles Taylor,Jill Pellew,2020-11-12 In a remarkable decade of public investment in higher education some 200 new university campuses were established worldwide between 1961 and 1970 This volume offers a comparative and connective global history of these institutions illustrating how their establishment intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s With an impressive geographic coverage using case studies from Europe the Americas Africa and Asia the book explores how these universities have influenced academic disciplines and pioneered new types of teaching architectural design and student experience From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth the illuminating case studies of this volume demonstrate how these universities shared in a common cause the embodiment of utopian ideals of living learning and governance At a time when the role of higher education is fiercely debated Utopian Universities is a timely and considered intervention that offers a wide ranging historical dimension to contemporary predicaments
