Focus On: 100 Most Popular American Singer-songwriters Wikipedia contributors, **Attracting Sustainable Investment** Saskia Vanderbent, 2022-12-30 This book is a practitioner's guide to sustainable development laying out strategies for attracting investment for communities and their partners. It proposes an innovative Sustainable Development Proposition SDP decision making tool based on a propositional calculus that can be used to analyse the sustainability of an infrastructure investment. It draws on environmental sustainability governance data analysis enabling investors to understand the economic indicators income potential return on investment demand and legal compliance as well as community and social benefits. Identified risks issues and advantages are managed and monitored and the SDP guidance can be applied to improve the prospects of the project in order to attract investment. Sustainable Community Investment Indicators SCIITM have been developed to assist with attracting investment and monitoring feedback on infrastructure projects designed by the author for remote rural and indigenous communities in response to current industry tools that are designed for urban environments. The book includes a broad range of real world and hypothetical case studies in agricultural and indigenous areas in South America Europe Africa Asia Australia and the Pacific. Taking a diverse economies approach these industry tools can be adapted to allow for enterprise design with unique communities. This book provides sustainable development practitioners including government agencies financiers developers lawyers and engineers with a positive practical guide to addressing and overcoming global issues with local and community based solutions and funding options.

The CW Comes of Age Ashley Lynn Carlson, Lisa K. Perdigao, 2022-03-28 Often overlooked in the history of broadcast television The CW became a top rated cable network in primetime during the mid 2000s at a moment when many critics predicted the death of the medium. Launched as a joint venture and successor to The WB and UPN The CW focused programming on an 18 to 34 year old predominantly female audience and soon won over viewers with shows like Gossip Girl Jane the Virgin and the DC Arrowverse franchise. Nimbly adapting to the streaming services era the network has strengthened new series development and its innovative distribution system. This collection of new essays examines The CW's business model marketing strategies and most popular series. F & S Index United States Annual, 2006 **The National Underwriter**, 1966

Sedition in Liberal Democracies Anushka Singh, 2018-02-16 Examining the relationship between sedition and liberal democracies particularly in India this book looks at the biography of sedition laws its contradictory position against free speech and democratic ethics. Recent sedition cases registered in India show that the law in its wide and diverse deployment was used against agitators in a community based pro reservation movement group of university students for their alleged anti national statements anti liquor activists and anti nuclear movement to name a few. Set against its contemporary use this book has used sedition as a lens to probe the fate of political speech in liberal democracy. The lived reality of the law of sedition in changing anthropological sites is juxtaposed with its positivist existence. Anushka Singh uses a

comparative framework keeping in focus the Indian experience backed by fieldwork in Haryana Maharashtra and Delhi and includes a comparative perspective from England the USA and Australia to contribute to debates on sedition within liberal democracies at large especially in the wake of the proliferation of counter terror legislations *Decarbonisation and the Energy Industry* Tade Oyewunmi, Penelope Crossley, Frédéric Gilles Sourgens, Kim Talus, 2020-11-26 This timely collection of essays examines the legal and regulatory dynamics of energy transitions in the context of emerging trends towards decarbonisation and low carbon energy solutions The book explores this topic by considering the applicable energy law and policy frameworks in both i highly industrialised and major economies such as the US EU China and Australia ii resource rich developing countries such as Nigeria and regions like Southern Africa Comprising 16 chapters the book delves into the tradeoffs and regulatory complexities of carbon constraints in conventional energy supply systems while maintaining a reliable and secure energy system that is equally sustainable ie decarbonised It highlights the importance of ensuring affordable access to energy services in developing economies as the energy transitions unfold and explores the potentials of emerging technologies such as hydrogen networks power to gas and Carbon Capture and Storage Additionally the book also considers the international investment law implications of energy decarbonisation Focusing on the nexus between law regulation and institutions it adopts a contextual approach to examine how and to what extent institutions can effectively facilitate more reliable sustainable and secure energy supply systems in the twenty first century This book portrays the conventional hydrocarbon based energy supply industry in a largely international and interconnected context It highlights the costs benefits and losses that may arise as the transition towards decarbonisation unfolds depending on the pathways and solutions adopted With chapters written by leading experts in energy law and policy the reader friendly style and engaging discussions will benefit an international audience of policymakers academics students and advisers looking for a more incisive understanding of the issues involved in energy transitions and the decarbonisation of energy systems **USA**
