2014 Geography Grade 11 Scope:

Textbooks and Educational Media: Perspectives from Subject Education Péter Bagoly-Simó, Zuzana Sikorová, 2021-08-05
This book brings together empirical research and conceptual work on textbooks and education media from 13 countries and 17 disciplines. Along with textbook production usage and development, it also explores the interconnectedness of educational policy and teaching and learning materials. Further, the book offers insights into regional and local discourses, e.g., specific theories of Portuguese and Spanish speaking countries as well as Nordic countries, contrasting their theories with international literature practices and solutions with regard to teaching selected subjects at the pre-primary, primary, secondary, and tertiary level. This book also discusses the specific combinations of subjects, e.g., Physics, Biology, Geography, Swedish, English, and their subject-specific education, e.g., Physics Education or Didactics. Lastly, it examines the work of a number of early career researchers, giving them a voice and bringing in fresh ideas currently being developed in various countries around the globe. This proceedings volume will appeal to publishers, subject educators in primary, secondary, and tertiary education, and academic researchers from the fields of textbooks, educational media, and subject-specific education. Its international authorship and explicit focus on subject-specific particularities of educational media provide a unique and comprehensive overview.

Handbook of Research on International Approaches and Practices for Gamifying Mathematics Huertas-Abril, Cristina A., Fernández-Ahumada, Elvira, Adamuz-Povedano, Natividad, 2022-05-13
Game-based resources provide opportunities to consolidate and develop a greater knowledge and understanding of both mathematical concepts and numeracy skills, which present opportunities and challenges for both teachers and learners when engaging with subject content. For learners for whom the language of instruction is not their first or main language, this can present challenges and barriers to their progress. This requires teachers to reconsider and adapt their teaching strategies to ensure the needs of these learners are fully addressed, thereby promoting inclusion and inclusive practices. The Handbook of Research on International Approaches and Practices for Gamifying Mathematics provides relevant theoretical frameworks and the latest empirical research findings in teaching and learning mathematics in bilingual/plurilingual education by using active methodologies, specifically gamification and game-based learning and teaching. Covering a wide range of topics such as safety, bilingual education, and multimodal mathematics, this major reference work is ideal for policymakers, researchers, academicians, practitioners, scholars, instructors, and students.

Education for Social Justice Nicholas M. Michelli, Tina J. Jacobowitz, Stacey Campo, Diana Jahnsen, 2023-12-19
Education for Social Justice is a statement of the role of education in promoting social justice. Drawing on research, this book explains what social justice is, presents the argument that democracy requires a commitment to social justice, and shows what action steps need to be taken to ensure social justice is achieved within education and society more broadly. The text presents research and concrete examples to examine the social justice issues facing society today. Some of the social justice topics explored include access to higher education, informal education,

such as museums and art galleries and adequate civic education and racial and gender discrimination within education as well as access to healthcare and the vote which impact students learning It explores specific research and action for each of these elements and at the end of the book provides potential paths forward to improve social justice outcomes This timely book encourages readers to consider what we can do to enhance social justice in education and society It is important reading for pre service teachers particularly those studying teaching for social justice social studies education and educational policy and politics as well as for in service teachers who want to make a difference The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Rhoads,2020-04-29

Rivers are important agents of change that shape the Earth's surface and evolve through time in response to fluctuations in climate and other environmental conditions. They are fundamental in landscape development and essential for water supply, irrigation, and transportation. This book provides a comprehensive overview of the geomorphological processes that shape rivers and that produce change in the form of rivers. It explores how the dynamics of rivers are being affected by anthropogenic change, including climate change, dam construction, and modification of rivers for flood control and land drainage. It discusses how concern about environmental degradation of rivers has led to the emergence of management strategies to restore and naturalize these systems and how river management techniques work best when coordinated with the natural dynamics of rivers. This textbook provides an excellent resource for students, researchers, and professionals in fluvial geomorphology, hydrology, river science, and environmental policy.

Social Studies for Young Children Gayle Mindes, Mark Newman, 2021-08-30. This book anchors the social studies as the central unifying force for young children. Teachers use the inquiry process to foster child development of social skills and citizenship ideals in their first classroom experiences. Curriculum is built starting with children's natural curiosity to foster literacy in all its forms: speaking, listening, reading, writing. Along the way, young children acquire knowledge and academic skills in civics, economics, geography, and history. Shown throughout are ways to promote social learning, self-concept development, social skills, and citizenship behaviors. Featured here are individually appropriate and culturally relevant developmental practices. Considered are the importance of family collaboration and funds of knowledge children bring to early care and education. Contributors to this edition bring expertise from bilingual early education, literacy, special education, and the social studies. Beginning with citizenship and community building, the authors consider all aspects of teaching young children, leading to a progression of capacity to engage civically in school and community.
