Criminal Capital Andrew Sanchez, 2016-04-14 Criminal Capital is an ethnographic analysis of the relationship between neoliberalism criminality and the reshaping of class in modern industrial India It examines the links between capitalism corruption trade unionism violence and labour politics in contemporary Indian society and public policy *The State of Conservation* Joshua Nygren, 2025-01-06 In the twentieth century natural resource conservation emerged as a vital force in US politics laying the groundwork for present day sustainability Merging environmental agricultural and political history Joshua Nygren examines the political economy and ecology of agricultural conservation through the lens of the conservation industrial complex This evolving public private network which united the US Department of Agriculture Congress local and national organizations and the agricultural industry guided soil and water conservation in rural America for much of the century Contrary to the classic tales of US environmental politics and the rise and fall of the New Deal Order this book emphasizes continuity Nygren demonstrates how the conservation policies programs and partnerships of the 1930s and 1940s persisted through the age of environmentalism and how their defining traits anticipated those typically associated with late twentieth century political culture The conservation industrial complex promoted a development oriented brand of conservation that aided the rise of large scale capital intensive agriculture which continues today It also reshaped the physical and political landscapes of the country leading to impressive conservation victories and spectacular failures by privileging some environments degrading others and intensifying farm depopulation In the name of environmental protection agricultural conservation made rural America less equal Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *The New American Farmer* Laura-Anne Minkoff-Zern, 2019-11-12 An examination of Latino a immigrant farmers as they transition from farmworkers to farm owners that offers a new perspective on racial inequity and sustainable farming Although the majority of farms in the United States have US born owners who identify as white a growing number of new farmers are immigrants many of them from Mexico who originally came to the United States looking for work in agriculture In *The New American Farmer* Laura Anne Minkoff Zern explores the experiences of Latino a immigrant farmers as they transition from farmworkers to farm owners offering a new perspective on racial inequity and sustainable farming She finds that many of these new farmers rely on farming practices from their home countries including growing multiple crops simultaneously using integrated pest management maintaining small scale production and employing family labor most of which are considered alternative farming techniques in the United States Drawing on extensive interviews with farmers and organizers Minkoff Zern describes the social economic and political barriers immigrant farmers must overcome from navigating USDA bureaucracy to racialized exclusion from opportunities She discusses among other topics the history of discrimination against farm laborers

in the United States the invisibility of Latino farmers to government and universities new farmers sense of agrarian and racial identity and the future of the agrarian class system Minkoff Zern argues that immigrant farmers with their knowledge and experience of alternative farming practices are despite a range of challenges actively and substantially contributing to the movement for an ecological and sustainable food system Scholars and food activists should take notice Using Graywater and Stormwater to Enhance Local Water Supplies National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Water Science and Technology Board, Committee on the Beneficial Use of Graywater and Stormwater: An Assessment of Risks, Costs, and Benefits, 2016-07-30 Chronic and episodic water shortages are becoming common in many regions of the United States and population growth in water scarce regions further compounds the challenges Increasingly alternative water sources such as graywater untreated wastewater that does not include water from the toilet but generally includes water from bathroom sinks showers bathtubs clothes washers and laundry sinks and stormwater water from rainfall or snow that can be measured downstream in a pipe culvert or stream shortly after the precipitation event are being viewed as resources to supplement scarce water supplies rather than as waste to be discharged as rapidly as possible Graywater and stormwater can serve a range of non potable uses including irrigation toilet flushing washing and cooling although treatment may be needed Stormwater may also be used to recharge groundwater which may ultimately be tapped for potable use In addition to providing additional sources of local water supply harvesting stormwater has many potential benefits including energy savings pollution prevention and reducing the impacts of urban development on urban streams Similarly the reuse of graywater can enhance water supply reliability and extend the capacity of existing wastewater systems in growing cities Despite the benefits of using local alternative water sources to address water demands many questions remain that have limited the broader application of graywater and stormwater capture and use In particular limited information is available on the costs benefits and risks of these projects and beyond the simplest applications many state and local public health agencies have not developed regulatory frameworks for full use of these local water resources To address these issues Using Graywater and Stormwater to Enhance Local Water Supplies analyzes the risks costs and benefits on various uses of graywater and stormwater This report examines technical economic regulatory and social issues associated with graywater and stormwater capture for a range of uses including non potable urban uses irrigation and groundwater recharge Using Graywater and Stormwater to Enhance Local Water Supplies considers the quality and suitability of water for reuse treatment and storage technologies and human health and environmental risks of water reuse The findings and recommendations of this report will be valuable for water managers citizens of states under a current drought and local and state health and environmental agencies **Microeconomics** Samuel Bowles, Simon D. Halliday, 2022 The authors bring into the classroom the ideas that today's researchers and policy makers use including behavioral economics game theory and incomplete contracts Modern microeconomics is applied to

pressing issues that students care about inequality climate change and innovation and illustrated with empirical case studies

Horses, Power and Place Neil Ward, 2023-12-05 *Horses Power and Place* explores the evolution of humanity's relationship with horses from early domestication through to the use of the horse as a draught animal an agricultural industrial and military asset and an animal of sport and leisure Taking an historical approach and using Britain as a case study this is the first book length exploration of the horse in the more than human geography of a nation It traces the role and implications of horse based mobility for the evolution of settlement structure urban morphology and the rural landscape It maps the growth and various uses of horses to the point of peak horse in the early twentieth century before considering the contemporary place of the horse in twenty first century economy and society It assesses the role of the horse in the formation of places within Britain and in the formation of the nation The book reflects on the implications of this historical and contemporary equine geography for animal geographies and animal studies It argues for the study of animals in general in how places are made not just by humans Written in a clear and accessible style this book will be essential reading for students and scholars of animal geography and animal studies more widely Federal Register ,2012-05 *Mobile Museums* Felix Driver ,Mark Nesbitt,Caroline Cornish,2021-04-19 *Mobile Museums* presents an argument for the importance of circulation in the study of museum collections past and present It brings together an impressive array of international scholars and curators from a wide variety of disciplines including the history of science museum anthropology and postcolonial history to consider the mobility of collections The book combines historical perspectives on the circulation of museum objects in the past with contemporary accounts of their re mobilisation notably in the context of Indigenous community engagement Contributors seek to explore processes of circulation historically in order to re examine inform and unsettle common assumptions about the way museum collections have evolved over time and through space By foregrounding questions of circulation the chapters in *Mobile Museums* collectively represent a fundamental shift in the understanding of the history and future uses of museum collections The book addresses a variety of different types of collection including the botanical the ethnographic the economic and the archaeological Its perspective is truly global with case studies drawn from South America West Africa Oceania Australia the United States Europe and the UK *Mobile Museums* helps us to understand why the mobility of museum collections was a fundamental aspect of their history and why it continues to matter today Praise for *Mobile Museums* This book advances a paradigm shift in studies of museums and collections A distinguished group of contributors reveal that collections are not dead assemblages The nineteenth and twentieth centuries were marked by vigorous international traffic in ethnography and natural history specimens that tell us much about colonialism travel and the history of knowledge and have implications for the remobilisation of museums in the future Nicholas Thomas University of Cambridge The first major work to examine the implications and consequences of the migration of materials from one scientific or cultural milieu to another it highlights the need for a more nuanced

understanding of collections and offers insights into their potential for future re mobilisation Arthur MacGregor **A**
