Sciatica: Foundations of diagnosis and conservative treatment Robert James Trager, 2019-11-09. This book summarizes research about sciatica for clinicians such as chiropractors, physical therapists, primary care providers, osteopaths and physiatrists. Well-informed patients will also benefit from reading this book. This book uses thousands of references, hundreds of images, original illustrations and case studies to review mechanisms of pain, examination techniques and treatment of sciatica. While the focus is on non-pharmaceutical and minimally invasive treatments, this book also reviews the indications for more invasive procedures. Each chapter also includes a historical review dating back decades or centuries, which puts the newer treatments in perspective. In this book, you will learn: What is sciatica and does it always relate to the spine? What common features occur in most cases of sciatica? Has our concept of what causes sciatica changed over time? What does it mean when symptoms are above the knee or below the knee? Can imaging help determine if disc lesions are causing symptoms? Does sciatica mean you are just getting old? What mechanisms allow disc herniations to heal? What percentage of cases of sciatica typically require surgery? What are the most effective non-pharmaceutical treatments for sciatica? What vitamins and natural substances are beneficial for sciatica.

Cross-Cultural Design P.L. Patrick Rau, 2014-06-02. This volume constitutes the refereed proceedings of the 6th International Conference on Cross Cultural Design (CCD 2014) held as part of the 16th International Conference on Human Computer Interaction (HCI International 2014) held in Heraklion, Crete, Greece, jointly with 13 other thematically similar conferences. The total of 1476 papers and 220 posters presented at the HCII 2014 conferences was carefully reviewed and selected from numerous submissions. The papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. They thoroughly cover the entire field of human computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The 76 papers included in this volume deal with the following topics: cross-cultural product and service design, cross-cultural issues in interaction, social aspects and implications of cross-cultural design, cross-cultural issues in e-commerce, marketing and branding, cross-cultural design for knowledge sharing and learning, cross-cultural design for the smart city and cross-cultural design for creativity.
