Atlas of Religion in China: Social and Geographical Contexts Fenggang Yang, 2018-09-04 The speed and the scale with which traditional religions in China have been revived and new spiritual movements have emerged in recent decades make it difficult for scholars to stay up to date on the religious transformations within Chinese society This unique atlas presents a bird's eye view of the religious landscape in China today In more than 150 full color maps and six different case studies it maps the officially registered venues of China's major religions Buddhism Christianity Protestant and Catholic Daoism and Islam at the national provincial and county levels The atlas also outlines the contours of Confucianism folk religion and the Mao cult Further it describes the main organizations beliefs and rituals of China's main religions as well as the social and demographic characteristics of their respective believers Putting multiple religions side by side in their contexts this atlas deploys the latest qualitative quantitative and spatial data acquired from censuses surveys and fieldwork to offer a definitive overview of religion in contemporary China An essential resource for all scholars and students of religion and society in China

Climate Change, Migration and Conflict in Bangladesh Md Rafiqul Islam, 2023-08-18 This book explores the relationship between climate change induced migration and conflict in Bangladesh one of the most ecologically fragile

countries in the world It explores why people migrate from their original place of land and how the migration of people with a different background to an ethnically distinctive region due to environmental changes can become a source of conflict and violence between the host peoples and migrants The volume focuses on the Chittagong Hill Tracts CHT which has experienced long standing ethnopolitical conflict due to the settlement and migration of the Bengali people from the plain land of Bangladesh This settlement and migration were mainly caused climatic events such as floods cyclones sealevel rise and disasters It traces the history of the ethnic conflict in the region and presents key findings from the field as well as the dynamics of everyday politics in the region This volume also highlights how internally climate displaced people generate violence and civil strife in the major urban cities through their settlements in slums The volume will be of great interest to scholars and researchers of environmental studies human geography migration and diaspora studies public policy social anthropology and South Asian studies **Handbook of Geography Education** Sarah Witham Bednarz, Jerry T. Mitchell, 2025-01-27

This handbook presents a broad and comprehensive overview of research and practices in geography education at primary and secondary levels from birth to about age 18 It summarizes the current state of knowledge in this sub discipline of geography Including authors representative of many geography education traditions the book pays equal attention to learning and teaching and to respect student voices and includes rich in case studies evidence based research and specific examples It also emphasizes ways that geography education can contribute to global concerns about social justice diversity equity and inclusion as well as ways it can help to prepare the next generation of informed critical and reflective members of societies The book is divided into five sections Purposes of geography education Why is it taught Perspectives on geography education What is taught Practices of geography education How is it organized and taught Preparation of geography educators How are geography educators prepared Possibilities for geography education What is the future of geography education By providing broad perspectives and lively and accessible writing this handbook is a useful tool for novice geography educators teacher educators educational policy makers support staff such as librarians and media resource specialists curriculum developers and assessment experts in many world regions The future of dialects Marie-Hélène Côté, Remco Knooihuizen, John Nerbonne, 2016-02-05 Traditional dialects have been encroached upon by the increasing mobility of their speakers and by the onslaught of national languages in education and mass media Typically older dialects are leveling to become more like national languages This is regrettable when the last articulate traces of a culture are lost but it also promotes a complex dynamics of interaction as speakers shift from dialect to standard and to intermediate compromises between the two in their forms of speech Varieties of speech thus live on in modern communities where they still function to mark provenance but increasingly cultural and social provenance as opposed to pure geography They arise at times from the need to function throughout the different groups in society but they also may have roots in immigrants speech and just as certainly from the ineluctable dynamics of groups wishing to express their identity to themselves and to the world

The future of dialects is a selection of the papers presented at Methods in Dialectology XV held in Groningen the Netherlands 11-15 August 2014. While the focus is on methodology the volume also includes specialized studies on varieties of Catalan Breton Croatian Belgian Dutch English in the US the UK and in Japan German including Swiss German Italian including Tyrolean Italian Japanese and Spanish as well as on heritage languages in Canada **Yojana**, 2014 **Sustainability in Contemporary Rural Japan** Stephanie Assmann, 2015-12-22 Rural communities in Japan have suffered from significant depopulation and economic downturn in post war years. Low birth rates aging populations agricultural decline and youth migration to large cities have been compounded by the triple disaster of 11 March 2011 which destroyed farming and fishing communities and left thousands of people homeless. This book identifies these challenges and acknowledges that an era of post growth has arrived in Japan. Through exploring new forms of regional employment community empowerment and reverse migration the authors address potential opportunities and benefits that may help to create and ensure the quality of life in depopulating areas and post disaster scenarios. This book will be of interest not only to students of Japanese society but also to those outside of Japan who are seeking new approaches for tackling depopulation challenges *Advances in Scalable and Intelligent Geospatial Analytics* Surya S Durbha, Jibonananda Sanyal, Lexie Yang, Sangita S Chaudhari, Ujwala Bhangale, Ujwala Bharambe, Kuldeep Kurte, 2023-05-12 Geospatial data acquisition and analysis techniques have experienced tremendous growth in the last few years providing an opportunity to solve previously unsolved environmental and natural resource related problems. However a variety of challenges are encountered in processing the highly voluminous geospatial data in a scalable and efficient manner. Technological advancements in high performance computing computer vision and big data analytics are enabling the processing of big geospatial data in an efficient and timely manner. Many geospatial communities have already adopted these techniques in multidisciplinary geospatial applications around the world. This book is a single source that offers a comprehensive overview of the state of the art and future developments in this domain. **FEATURES** Demonstrates the recent advances in geospatial analytics tools technologies and algorithms. Provides insight and direction to the geospatial community regarding the future trends in scalable and intelligent geospatial analytics. Exhibits recent geospatial applications and demonstrates innovative ways to use big geospatial data to address various domain specific real world problems. Recognizes the analytical and computational challenges posed and opportunities provided by the increased volume velocity and veracity of geospatial data. This book is beneficial to graduate and postgraduate students academicians research scholars working professionals industry experts and government research agencies working in the geospatial domain where GIS and remote sensing are used for a variety of purposes. Readers will gain insights into the emerging trends on scalable geospatial data analytics *Push Back* Judith Large, 2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam. Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform. In

this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace Push Back is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics
