2014 Projected Salary Increases In South Africa:

An Employment-targeted Economic Program for South Africa Robert Pollin, Gerald A. Epstein, Léonce Ndikumana, 2007-02-23 Investment in South Africa is low real interest rates are high the employment intensity of growth has been relatively slow The employment targeted program advocated in this book seeks to reverse these tendencies by lowering average interest rates and channeling subsidized credit to labor intensive pro poor activities particularly small scale agriculture and small and medium sized enterprises This is a bold program and by challenging conventional inflation targeted economic policy the book makes a major contribution to the debate on economic policy in South Africa Keith B Griffin University of California Riverside US The people of South Africa and the African National Congress led government have made extraordinary social and economic advances since ending apartheid and beginning the transition to democracy in 1994 But the country still faces severe problems of mass unemployment underemployment and poverty This study sponsored by the United Nations Development Program presents a detailed economic program designed to produce major reductions in unemployment and poverty and a general spreading of economic well being and to achieve these ends in a manner that is sustainable over a longer term framework *Accelerated Land Reform, Mining, Growth, Unemployment and Inequality in South Africa* Nombulelo Gumata, Eliphaz Ndou, 2020-01-03 The overarching goal of South Africa's National Development Plan NDP is to eliminate poverty reduce inequality lower unemployment and increase the labour participation This book contributes to academic and policy efforts to achieve these NDP goals We establish that the coal metal ores and the platinum group commodity sectors will underpin the mining as a sunrise industry The export led growth strategy is necessary for intensive employment creation but must be complemented by other micro macroeconomic and industrial policies A strategy of minerals beneficiation is important for intensive employment creation Accelerated land reform is a supply side or structural reform policy intervention tool aimed at increasing potential output changing ownership patterns in the economy increasing entrepreneurship labour absorption economic inclusion and lowering income inequality Evidence shows that the balance sheet channel commodity price booms and busts are intricately linked with the exchange rate dynamics policy uncertainty confidence and the effects of droughts also symptoms of climate change Productivity and investment growth shocks matter for output employment and price stability Evidence indicates that nominal GDP growth above 10 percent and keeping inflation within the target band leads to significant increase in employment and decline in unemployment without inflationary pressures especially when inflation is below 4.5 percent To operationalise the NDP targets align and co ordinate policies the South African Reserve Bank SARB mandate can be expanded to include maximum employment This must be complemented by lowering the inflation target band adjusting the financial regulatory macro prudential and monetary policy frameworks This will enhance the conduct and credibility of monetary and financial stability policies to achieve the set objectives These objectives make policy co ordination pertinent and binding **The Oxford Handbook of the South**

African Economy Arkebe Oqubay, Fiona Tregenna, Imraan Valodia, 2021 This Handbook provides a detailed and wide ranging coverage of the key economic questions in South Africa concentrating on the more recent economic challenges facing the country *Case Studies on Managing Government Compensation and Employment - Institutions, Policies, and Reform Challenges* International Monetary Fund, 2016-12-04 This supplement presents country case studies reviewing country experiences with managing wage bill pressures which are the basis for the compensation and employment reform lessons identified in the main paper The selection of countries for the case studies reflects past studies carried out by either the IMF or the World Bank in the context of technical assistance or bilateral surveillance Table 1 These studies provide important insights into the different sources of wage bill pressures as well as the reform challenges governments have faced when addressing these pressures over the short and medium term The studies cover 20 countries including five advanced economies six countries from sub Saharan Africa two countries in developing Asia one country in the Middle East and North Africa three countries in Latin America and the Caribbean and three countries in Central and Eastern Europe and the CIS The structure of each case study is similar with each study starting with a presentation of the institutional coverage and framework for setting and managing the wage bill a description of employment and compensation levels including their comparison with the private sector and a discussion of the challenges that motivated the need for reforms and when applicable the reforms implemented and lessons derived from these **Managing Government Compensation and Employment - Institutions, Policies, and Reform Challenges** International Monetary Fund. Fiscal Affairs Dept., 2016-08-04 Government compensation and employment policies are important for the efficient delivery of public services which are crucial for the functioning of economies and the general prosperity of societies On average spending on the wage bill absorbs around one fifth of total spending Cross country variation in wage spending reflects in part national choices about the government's role in priority sectors as well as variations in the level of economic development and resource constraints *South Africa 2014* Brett Bowes, Stuart Pennington, 2004 **Pensions at a Glance 2015 OECD and G20 indicators** OECD, 2015-12-01 The 10 year anniversary edition of Pensions at a Glance highlights the pension reforms undertaken by OECD and G20 countries over the last two years Two special chapters provide deeper analysis of first tier pension schemes and of the impact of short or interrupted careers due to late entry **Kingdom of Lesotho** International Monetary Fund. African Dept., 2019-04-30 This 2019 Article IV Consultation highlights that while international reserves are at adequate levels and banks remain well capitalized in the Republic of Lesotho domestic arrears are beginning to impact the broader economy exacerbating growth challenges posed by structural impediments The recently passed FY2019/20 budget envisages an ambitious consolidation that could begin to lay the groundwork for a transition to private sector driven growth Construction related to the second phase of the Lesotho Highlands Water Project will support medium term growth and the diamond and textile industries have positive prospects Fiscal adjustment is needed to address

government arrears buttress debt sustainability and safeguard the link to the rand Generating strong and inclusive growth will require improved public service delivery and the private sector to become the primary engine of job creation Better targeting of the government's resources Public Financial Management reforms and reorienting both expenditures and the role of government in the economy will be critical to achieve these goals **Africa's Pulse Fall 2015** Punam

Chuhan-Pole, 2015 Africa's Pulse is a biannual publication containing an analysis of the near term macro economic outlook for the region It also includes a section focusing on a topic that represents a particular development challenges for the continent It is produced by the Office of the Chief Economist for the Africa Region This issue is an analysis of issues shaping Africa's economic future Growth remains stable in Sub Saharan Africa Some countries are seeing a slowdown but the region's economic prospects remain broadly favorable External risks of higher global financial market volatility and lower growth in emerging market economies weigh on the downside In several Sub Saharan African countries large budgetary imbalances are a source of vulnerability to exogenous shocks and underscore the need for rebuilding fiscal buffers in these countries The Ebola outbreak is exacting a heavy human and economic toll on affected countries and if not rapidly contained the risk of wider contagion grows Without a scale up of effective interventions growth would slow markedly not only in the core countries Guinea Liberia and Sierra Leone but also in the sub region as transportation cross border trade and supply chains are severely disrupted In Sub Saharan Africa growth in agriculture and services is more effective at reducing poverty than growth in industry Structural transformation has a role to play in accelerating poverty reduction in Sub Saharan Africa Increasing agricultural productivity will be critical to fostering structural transformation Boosting rural income diversification can facilitate this transformation as well Investments in rural public goods and services for example education health rural roads electricity and ICT including in small towns will be conducive to lifting productivity in the rural economy R sum de l diteur

Extraterritorial investments in agriculture in Africa: the perspectives of China and South Africa Food and Agriculture Organization of the United Nations ,2020-11-30 The 2008 global food price crisis and the resurgence of food prices in 2010 2011 caused both widespread concern and expectations On the one hand countries whose food supply depends on procuring food from international markets saw food price spikes as threats to their national food security On the other hand investors saw in these price spikes an opportunity to make profitable investments in agriculture Either as threat or opportunity food price spikes raised interest in Africa whose lands are fertile and have unrealised potential Concerns of a possible land acquisitions in Africa and in particular the impacts of Large Scale Land Based Investments in Agriculture LSLBIA on local communities became prominent policy and academic themes Unfortunately quantifying the phenomenon has proved hard due to the difficulty of finding empirical evidence As a result debates are either theoretical or based on anecdotal evidence This publication thus explores a different path and explores the reasons why entities from China and South Africa were interested in investing in African agriculture This publication examines the reasons why investors were

interested in Africa and the relationship that these bear to The Voluntary Guidelines on the Responsible Governance of Tenure of Land Fisheries and Forests in the Context of National Food Security the Voluntary Guidelines or VGGT While primarily aimed at governments the VGGT also contain important provisions that are applicable to the private sector They focus on helping investors pursue their projects in ways that recognise and respect legitimate tenure rights and human rights In addition the VGGT also contain provisions and encourages good practices for responsible investment in land forests and fisheries The VGGT are a valuable tool for helping investors minimise risk while also safeguarding the rights of local communities China and South Africa represent important sources of LSLBIA in Africa although the bulk of such investment comes from western countries Their investment may intensify in the future for a variety of reasons First China has the third largest land area in the world but its expansion through additional land use is limited Second the dual agricultural economy of South Africa is preventing commercial farming located in well endowed areas from expanding into remote resource poor areas where small scale subsistence based production is prevalent This publication assesses the extent to which selected investors from China and South Africa and the governments of those countries have adopted the best practices represented by the VGGT in relation to LSLBIA in *Supermarket Retailing in Africa* Felix Adamu Nandonde, John L. Stanton, 2022-03-24 This book surveys the landscape of supermarket retailing in Africa showing how this expanding part of the retail sector is changing consumerism on the continent Drawing on research covering retail formats consumer behaviour strategies operation research ICT relationship marketing and market linkage the book investigates the many factors impacting the growth of supermarkets in Africa The contributors employ theories concepts and methods in order to help us to understand changing consumer behaviour the strategies used by suppliers to access supermarkets the role of service suppliers in the growth of the sector and ultimately how supermarkets can assist in making the market linkage between producers and consumers in Africa The chapters provide a comprehensive exploration of modern retail discussing its growth and future identifying consumer preferences as well as suggesting solutions to the challenges that retailers and suppliers on the continent face in developing the sector This book will be of interest to scholars and students of the retail sector and retail management in Africa

Governing African Gold Mining Ainsley Elbra, 2016-10-31 This book takes a fresh approach to the puzzle of sub-Saharan Africa's resource curse Moving beyond current scholarship's state-centric approach it presents cutting edge evidence gathered through interviews with mining company executives and industry representatives to demonstrate that firms are actively controlling the regulation of the gold mining sector It shows how large mining firms with significant private authority in South Africa Ghana and Tanzania are able to engender rules and regulations that are acknowledged by other actors and in some cases even adopted by the state In doing so it establishes that firms are co-governing Africa's gold mining sector By exploring the implications for resource cursed states this significant work argues that firm-led regulation can improve governance but that many of these initiatives fail to address country mine specific issues where there remains a role for the state in ensuring the benefits of mining flow to local communities It will appeal to economists political scientists and policy makers and practitioners working in the field of mining and extractives

ICICKM 2018 15th International Conference on Intellectual Capital Knowledge Management & Organisational Learning Prof. Shaun

Pather, 2018-11-29 **Financing Innovation and Sustainable Development in Africa** Steve Kayizzi-Mugerwa, Muna Ndulo, 2018-04-18 This book derives from a symposium held at Cornell University in April 2014 The symposium explored development financing which has become an important area of policy discussion in Africa and other developing areas in recent years Using multifaceted and multidisciplinary analytical approaches it considers the role of the banking system the stock market credit access external aid and sovereign wealth funds in the evolving development finance architecture Further the volume looks at China's role as an aid donor the impact of BRICs partnerships in South Africa the role of NEPAD in mobilizing resources for infrastructure development and the links between law trade and regional integration The study concurs with previous analyses that greater access to credit by the poor represents the most effective way of fighting poverty

and raising the standards of living in Africa Cornell s Institute for African Development and the African Development Bank were cosponsors of the 2014 symposium

Institutional Constraints to Small Farmer Development in Southern Africa Ajuruchukwu Obi,2011-04-27 The Southern Africa region has experienced more than its fair share of problems in recent years Just when it seemed that the hardships wrought by the devastating cycle of droughts and floods of 2000 to 2002 were a thing of the past other problems emerged At one level there have been the weak and often erratic governance mechanisms and political crises in some countries of the region leading to severe disruptions in agricultural production to the point that supplies and markets have virtually disappeared At another level socio cultural rigidities have often militated against the adoption of efficient farming practices resulting in sub optimal choices that lock smallholders into a low equilibrium trap In the face of the disappearing supplies and missing markets these have engendered hyper inflationary trends of a magnitude unknown anywhere else in the world But in the midst of all this apparent dreariness cases are emerging from which immense lessons can be drawn This book assembles a collection of research papers based on studies completed in 2008 and 2009 in Southern Africa that examine various dimensions of the institutional constraints small farmers are facing in the region and how they are going about dealing with them The papers draw from these diverse and polar experiences and present some theoretical and practical insights that should form the basis for more in depth country level sector specific analyses focusing mainly on citrus horticultures cotton and livestock The thematic issues of income inequality land reform natural resource management and value chain governance and chain choice are covered in this book and are expected to be of interest for a wide constituency including researchers development practitioners rural animators and policy makers
