The Economics of Philanthropy Kimberley Scharf,Michael Tonin,2018-08-07 Experts bring economic tools to bear on philanthropic activities addressing topics that range from the determinants of giving to the effectiveness of fundraising techniques Economists are increasingly aware of the need to better understand philanthropic activities In this book economists address a variety of topics related to the economics of philanthropy ranging from the determinants of giving to the effectiveness of fundraising techniques The contributions focus on individual motives for giving and volunteering and in particular how they affect donation outcomes fundraising decisions and public policies toward giving Previous research has viewed motives for giving as embedded in formal models of economic behavior with rational agents who maximize their own utility while constrained by a budget These models however have been shown to have poor predictive power neglecting direct and indirect motives for giving The contributors consider among other subjects the free riding problem in these models altruistic direct and indirect motives for giving addressed both theoretically and with lab experiments the linear public good game the role of social information the effectiveness of matching gifts and premiums motives for unpaid volunteering subscription models as a way to regulate revenue streams and increasing reliance on public funds Contributors James Andreoni Jon Behar Avner Ben Ner Ted Bergstrom Greg Bose Sarah Brown Catherine C Eckel Christina Gravert David H Herberich Samantha Horn Fantingyu Hu Dean Karlan Ann Kathrin Koessler Benjamin M Marx Jonathan Meer Michael Menietti Bradley Minaker Mark Ottoni Wilhelm A Abigail Payne Maria P Recalde Kimberley Scharf Claudia Schwirplies Marta

Serra Garcia Sarah Smith Karl Taylor Mette Trier Damgaard Lise Vesterlund Laura Villalobos Shadow Networks Francisco Louçã, Michael Ash, 2018 Many accounts of the financial crisis focus on renegade activity in marginal financial sectors This book argues that far from this pervading view the shadow finance that initiated the crisis is tightly networked with bank based finance It traces these networks to explain how the now decade long crisis took shape **Behavioural Economics and Regulation** Maria C. de Campos, 2022-09-08 In recent years the idea of nudges small changes in individual choice architecture that do not involve incentives or coercion has entered policy discourse and practice to address various problems ranging from energy usage to retirement savings However how nudges can be incorporated into regulatory practice and whether the experimental methodologies used to design nudges are still appropriate when they are being used as a regulatory instrument is still an unexplored issue As this book shows the translation of ideas into the world of regulation is not so simple and straightforward By analysing the different experimental alternatives that regulators can use when designing nudges and through a close analysis of a real world example the case of the European Union tobacco warnings this book proposes an alternative design process more in tune with the reality of regulation The book explores the implications of iterative experimental methodologies and processes for regulators concluding with a call for an alternative nudging s design process tailored to the regulatory space This book is crucial for researchers and policy makers interested in the incorporation of nudging into regulation and anyone interested in the implications of behavioural economics and evidence more generally for regulatory design **2022 2nd International Conference on Management Science and Software Engineering (ICMSSE 2022)** Syed Abdul Rehman Khan, Noor Zaman Jhanjhi, Hongbo Li, 2024-03-09 This is an open access book Management science and engineering is a systematic discipline that combines modern information technology and digital technology and then uses some related discipline methods such as systems science mathematical science economics and behavioral science and engineering methods After analyzing and researching some problems arising from social economy engineering education finance etc and making corresponding countermeasures The main purpose is to achieve control and planning decision making and adjustment in social economic education engineering and other aspects and then make improvements and finally organize and coordinate The relevant departments can be combined to achieve system management so that the allocation of resources and the Management can be rationally optimized so that individual functions can play the greatest role minimize resource consumption and maximize the optimal allocation of resources This is also the ultimate research purpose Liangliang Wang said Management is the productive force which promotes the development of the country society and enterprise The relationship between management practice and management science is the relationship between theory and practice The research on management science helps to improve the level of management and then promote the development of the country society and enterprises On the other hand management practice changes with the continuous progress of the times It is necessary to study the current situation and trend of management science in the new

era which will help to clarify the future development direction of the discipline and discover the deficiencies in management scientific research and grasp it The focus of management science research thereby promoting research in management science Therefore it is necessary to create a space for management science practitioners engineering practitioners researchers and related enthusiasts to gather and discuss this current issue The 2nd International Conference on Management Science and Software Engineering ICMSSSE 2022 aims to accommodate this need as well as to 1 provide a platform for experts and scholars engineers and technicians in the field of management and software engineering to share scientific research achievements and cutting edge technologies 2 understand academic development trends broaden research ideas strengthen academic research and discussion and promote the industrialization cooperation of academic achievements 3 Promote the institutionalization and standardization of management science through modern research The conference will focus on software processing and information systems combining research directions in the field of management ICMSSSE International Conference on Management Science and Software Engineering welcomes papers dealing with management systems research software programming management systems optimization information systems management etc The 2nd International Conference on Management Science and Software Engineering ICMSSSE 2022 will be held in Chongqing on July 15 17 2022 The conference sincerely invites experts scholars business people and other relevant personnel from domestic and foreign universities research institutions to participate in the exchange

Handbook on Diversity and Inclusion Indices Ng, Eddy S., Stamper, Christina L., Klarsfeld, Alain, Han, Yu J., 2021-07-31 This Handbook on Diversity and Inclusion Indices critically examines many of the popular and frequently cited indices related to DEI benchmarking and progress tracking The goal is to provide a better understanding of the indices construction strengths and weaknesses intended applications contribution to research and progress towards diversity and equity goals

Law and Corporate Behaviour Christopher Hodges, 2015-10-22 This book examines the theories and practice of how to control corporate behaviour through legal techniques The principal theories examined are deterrence economic rational acting responsive regulation and the findings of behavioural psychology Leading examples of the various approaches are given in order to illustrate the models private enforcement of law through litigation in the USA public enforcement of competition law by the European Commission and the recent reform of policies on public enforcement of regulatory law in the United Kingdom Noting that behavioural psychology has as yet had only limited application in legal and regulatory theory the book then analyses various European regulatory structures where behavioural techniques can be seen or could be applied Sectors examined include financial services civil aviation pharmaceuticals and workplace health safety Key findings are that enforcement has to focus on identifying the causes of non compliance so as to be able to support improved performance rather than be based on fear motivating complete compliance Systems in which reporting is essential for safety only function with a no blame culture The book concludes by proposing an holistic model for maximising compliance within large

organisations combining public regulatory and criminal controls with internal corporate systems and external influences by stakeholders held together by a unified core of ethical principles Hence the book proposes a new theory of ethical regulation This title is included in Bloomsbury Professional s International Arbitration online service *International Business Diplomacy* Huub Ruël, 2017-11-23 Business diplomacy involves developing strategies for long term positive relationship building with governments local communities and interest groups aiming to establish and sustain legitimacy and to mitigate the risks arising from all non commercial or exogenous factors in the global business environment
