2014 Grade 1economics Memorandum Paper 2

Francisco Louçã, Michael Ash

2014 Grade 1 economics Memorandum Paper 2:

African Economic Outlook 2016 Sustainable Cities and Structural Transformation African Development Bank, OECD, United Nations Development Programme, 2016-05-23 This report presents the continent's current state of affairs and forecasts its situation for the coming two years. It examines Africa's performance in crucial areas: macroeconomics, financing, trade policies and regional integration, human development and governance.

Overripe Economy Alan Nasser, 2018-06-20 From industrialisation to the present day, Overripe Economy is a genealogy of the emergence of a finance-ridden authoritarian austerity plagued American capitalism. This panoramic political economic history of the country surveys the ruthlessly competitive capitalism of the nineteenth century, the maturation of industrial capitalism in the 1920s, the rise and fall of capitalism's Golden Age and the ensuing decline towards the modern era. Alan Nasser shows why the emergence of the persistent austerity of financialised neoliberal capitalism is the natural outcome of mature capitalism's evolution, revealing both the key structural and political vulnerabilities of capitalism itself and points towards the kind of system that can transcend it. At the centre of the argument is capitalism's ultimatum: either a new normal of persistent austerity, declining democracy and a privatised state, or a polity and economy characterised by an economic democracy that can ensure both higher wages and a shorter working week.

Research Handbook on Corporate Governance and Ethics Till Talaulicar, 2023-07-01 This essential Research Handbook provides an in-depth analysis of the link between corporate governance and ethics. By bringing together internationally renowned scholars, it reflects upon pertinent trends and challenges within the field. Significantly, it illuminates the ethical foundations of corporate governance.

Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe. Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development. In addition, a discussion of possible scenarios which systematically addresses the implications of anti-crisis policies is missing. This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy. It argues that combining critical political economy approaches and post-Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis. Although both approaches have the capacity to deal with asymmetries and uneven development, the heterogeneity in Europe has been an often largely neglected dimension of analysis. However, this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration. Hence, this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives. This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all.

students and scholars of IPE European political economy and European politics Scandalous Economics Aida A. Hozic, Jacqui True, 2016 This book is about the neglect of gender and race in explanations of the Global Financial Crisis It is also about the sexual scandals and gendered austerity policies that have relegated public debate and the crisis itself We need to look at the activities and the privileges of the advantaged the TED women of the crisis as much as the victimization of the disadvantaged to fully grasp the interplay between gender and economy in this age of restoration The Collapse of Venezuela Francisco Rodríguez, 2025-03-15 The Collapse of Venezuela documents Venezuela's economic implosion as politicians adopted strategies that severely harmed the economy in their struggle for power Between 2012 and 2020 Venezuela suffered the largest economic contraction ever documented outside of wartime This collapse was caused not just by the failure of an economic model but also the deeper failure of its political system to manage the conflicts inherent to a polarized society The Collapse of Venezuela argues that when the stakes of power are high politicians have an incentive to adopt political strategies that directly harm the economy Author Francisco Rodríguez describes these scorched earth strategies and shows how politicians used these methods to target the Venezuelan economy in their fight for power Ultimately the conflicting sides have trapped the economy in a catastrophic stalemate that has destroyed the country's living standards and turned the economy into a political battlefield By charting Venezuela's experience with scorched earth politics Rodríguez reveals an essential cautionary tale for other democracies around the globe **Quest for Inclusive Growth in Bangladesh** Muhammed Muqtada, 2020-11-22 This book offers a selection of intensely researched essays focused on the critical planning objectives and policy priorities that would enhance the promotion of inclusive growth in a developing country It has taken Bangladesh as the case study It argues for rethinking of traditional policies and provides arguments and ways to reorient these toward inclusive growth and better social inclusion These involve a dedicated focus on employment and inclusion in the design of monetary and fiscal policies trade and industrial policies policies toward rural non farm employment social protection and safety net strategy and the nature of institutional and governance reforms which are imperative for ensuring inclusive growth The studies included in the book were prepared before or at the onset of the ongoing COVID 19 pandemic and the unfolding economic crisis yet they provide cursory observations on its likely impact and underscore how the stated principles and policies of an inclusive growth strategy have become even more significant in the present situation Bangladesh has been growing respectably during the past decade and a half and has arguably shown strong progress in several social indicators However inequality and vulnerability are rising alarmingly and the economy is beset with high levels of corruption as well as with various other governance deficits that can adversely affect future growth and social inclusion The book provides a critical assessment of how far growth in Bangladesh has been inclusive both over time and in comparison to selected South and Southeast Asian countries It constructs a specific inclusive growth index with reference to what the study considers as the significant goals and pillars of inclusive growth Bangladesh is not the only

developing country that is faced with the arduous task of tackling unbalanced economic growth and of implementing the 2030 Agenda. Rising vulnerability, inequality, disappointing job growth and poor governance are also major challenges to inclusive growth for many countries in the Global South. Therefore the appeal of this book extends well beyond the borders of Bangladesh and the South Asian region. Corresponding to SDG 8, the book is aimed at academia, researchers, policymakers, civil society leaders as well as other national and international development practitioners with an avid interest in issues concerning growth with equity and in sync with the 2030 Agenda for Sustainable Development. In addition, the book is a valuable resource for interested students of disciplines related to economics and development policy. *Advanced*

Mathematical Methods for Economic Efficiency Analysis Pedro Macedo, Victor Moutinho, Mara Madaleno, 2023-06-21

Economic efficiency analysis has received considerable worldwide attention in the last few decades with Stochastic Frontier Analysis (SFA) and Data Envelopment Analysis (DEA) establishing themselves as the two dominant approaches in the literature. This book, by combining cutting edge theoretical research on DEA and SFA with attractive real world applications, offers a valuable asset for professors, students, researchers and professionals working in all branches of economic efficiency analysis as well as those concerned with the corresponding economic policies. The book is divided into three parts, the first of which is devoted to basic concepts making the content self-contained. The second is devoted to DEA and the third to SFA. The topics covered in Part 2 range from stochastic DEA to multidirectional dynamic inefficiency analysis including directional distance functions, the elimination and choice translating algorithm, benefit of the doubt, composite indicators and internal benchmarking for efficiency evaluations. Part 3 also includes exciting and cutting edge theoretical research on e.g. robustness, nonparametric stochastic frontier models, hierarchical panel data models and estimation methods like corrected ordinary least squares and maximum entropy. *Shadow Networks* Francisco Louçã, Michael Ash, 2018-10-03

The 2007-08 financial crisis surprised many economists and the public. But how did the crisis come about, why was it so deep and why has the clean up been so slow and painful? Many accounts of the crisis focus on renegade activity in marginal financial sectors. *Shadow Networks* challenges this prevailing view and sets out to demonstrate that far from a dissident branch, the shadow finance that initiated the crisis is tightly networked with and highly profitable for bank-based finance. The collapse was not an accident but baked into the system of finance from the start. *Shadow Networks* traces the complex web of power that caused crisis and gives vivid descriptions of the actors in the quarter century leading up to 2007 to explain how the now decade-long crisis took shape. *Shadow Networks: Financial Disorder and the System that Caused Crisis* is a probing examination of the roles of the powerful elite. It traces the networks and institutions that support a finance-focused, market-centered model of economy and society from their ascendancy to their surprising resilience in the face of manifest failures. *Free Traders* Malcolm Fairbrother, 2020

Today's global economy was largely established by political events and decisions in the 1980s and 90s when scores of nations opened up their economies to the forces of globalization. In *Free Traders* Malcolm Fairbrother

argues that politicians embrace of globalization was much less motivated by public preferences than by the agendas of businesspeople and other elites Drawing on over one hundred interviews with decision makers and analyses of archival materials from Canada Mexico and the U S Fairbrother tells the story of how each country negotiated and ratified two agreements that substantially opened and integrated their economies the 1989 Canada U S and trilateral 1994 North American Free Trade Agreement Contrary to what many commentators believe these agreements like free trade elsewhere were based less on mainstream neoclassical economics than on the informal self serving economic ideas of business While the stakes in the globalization debate remain high Free Traders uses a comparative historical approach to sharpen our understanding of how globalization arose in the past to provide us with clearer trajectory for how it will develop in the future
