the country's founding Since the Culture Wars they have returned with vengeance One of their champions is a new generation of tech savvy activists known as the Alt Right This is a movement that embraces a vision of America that is unapologetically white and Christian supremacist misogynistic and xenophobic Rather than see the Alt Right as an outlier the authors of this book treat it as an integral part of an endemic battle over the articulation of American national identity Critically what distinguishes these cyber warriors from other far right movements is their rhetorical style Their far right counterparts employ muscular rhetoric and demand the right to dominate The Alt Right on the other hand has opted for a weapons of the weak strategy and accuses adversaries of persecuting them Embracing a cult of victimhood this shift in rhetorical tactic is not only a matter of gaslighting its goal is to justify potential acts of violence
