Islamophobia and Psychiatry H. Steven Moffic, John Peteet, Ahmed Zakaria Hankir, Rania Awaad, 2018-12-17 The book begins by covering the general and clinical challenges that are unique to Muslims, drawing from an internationally ethnically and intergenerationally diverse pool of experts. The text covers not only how psychiatrists and other clinicians can intervene successfully with patients but how we as clinicians can have a role in addressing other societally connected mental health challenges arising from Islamophobia. The text addresses three related but distinct areas of interest: Islamophobia as a destructive force; Islam as a religion that is threatened by stigma and misinformation; and the novel intersection of these forces with the field of psychiatry. *Islamophobia and Psychiatry* is a vital resource for all clinicians and clinicians in training who may encounter patients struggling with these issues, including adult and child psychiatrists, psychologists, primary care physicians, counselors, social workers, and others.
