Curriculum in Pacific Rim Countries - China, Japan, Korea, and Singapore Zalman Usiskin, Edwin
Willmore, 2008-09-01 This volume contains the proceedings of the First International Curriculum Conference sponsored by
the Center for the Study of Mathematics Curriculum CSMC The CSMC is one of the National Science Foundation Centers for
Learning and Teaching Award No ESI 0333879 The countries China Japan Korea and Singapore in alphabetical order which
also happens to be the order of their populations have each been in the news because of their performance on international
tests and or their economic performance and potential They also have centralized education ministries that create a single
mathematics curriculum framework followed in the entire country In all these countries curricula are differentiated for
students with different interests usually around Grade 10 or 11 We think the reader will agree that the papers are of very
high quality befitting the standing of the individuals who were invited but particularly notable for our international speakers
because in three of these countries English is not the speaker's first language Following each paper we have included a short
biography of the author's so that the reader can understand the perspective of the paper's author **Math Course 2,**
