Current Index to Journals in Education, 1997 **Teaching Dilemmas and Solutions in Content-Area Literacy, Grades 6-12** Peter Smagorinsky, 2014-08-27 Middle and high school students must become proficient readers and writers to successfully meet the requirements of the secondary curricula and be adequately prepared for college employment and citizenship Literacy Across the Curriculum is a guide for educators who are concerned with how students experience literacy instruction across the secondary school curriculum and need strategies for raising student performance levels *The Afterlife of Texts in Translation* Edmund Chapman, 2019-11-14 The Afterlife of Texts in Translation Understanding the Messianic in Literature reads Walter Benjamin's and Jacques Derrida's writings on translation as suggesting that texts exist within a process of continual translation Understanding Benjamin's and Derrida's concept of afterlife as overliving this book proposes that reading Benjamin's and Derrida's writings on translation in terms of their wider thought on language and history suggests that textuality itself possesses a messianic quality Developing this idea in relation to the many rewritings and translations of Don Quixote particularly the multiple rewritings by Jorge Luis Borges Edmund Chapman asserts that texts consist of a structure of potential for endless translation that continually promises the overcoming of language history and textuality itself *Art Index* Alice Maria Dougan, Margaret Furlong, 1998 **The Oxford Handbook of Nigerian History** Toyin Falola, Matthew M. Heaton, 2022 Thirty six chapters covering the history of Nigeria from prehistoric times to the twenty first century Accessible overviews of both the political narrative as well as the deeper histories of social organization identity formation and inter group relationships cutting edge analysis of key themes from highly respected scholars in a single forward facing volume Book jacket *The College Handbook, 1996* College Board, College Board Staff, 1995-08 For over 50 years students and their parents have relied on this handbook for complete facts about colleges throughout the country The only one volume guide to all accredited colleges both two and four year schools the guide provides up to date information on admission policies acceptance rates financial aid campus life majors and more The Making of the Modern Self Dror Wahrman, Ruth N Halls Professor of History Dror Wahrman, 2004-01-01 Wahrman argues that toward the end of the 18th century there was a radical change in notions of self personal identity a sudden transformation that was a revolution in the understanding of selfhood of identity categories including race gender class Medicine and the Ethics of Care Diana Fritz Cates, Paul Lauritzen, 2002-03-01 In these essays a diverse group of ethicists draw insights from both religious and feminist scholarship in order to propose creative new approaches to the ethics of medical care While traditional ethics emphasizes rules justice and fairness the contributors to this volume embrace an ethics of care which regards emotional engagement in the lives of others as basic to discerning what we ought to do on their behalf The essays reflect on the three related themes community narrative and emotion They argue for the need to understand patients and caregivers alike as moral agents who are embedded in multiple communities who seek to attain or promote healing partly through the medium of storytelling and

who do so by cultivating good emotional habits A thought provoking contribution to a field that has long been dominated by an ethics of principle Medicine and the Ethics of Care will appeal to scholars and students who want to move beyond the constraints of that traditional approach **Resources in Education** ,1997-05 *A World Torn Apart* Victoria

Carpenter,2007 This collection of essays derives from a conference on Violence Culture and Identity held in St Andrews in June 2003 It is a contribution to the understanding of representations of violence in Latin American narrative The collected essays are dedicated to the study of the problematic history of violence as a means of civilizing the region violence used by dictatorial regimes to eradicate the collective memory of their actions violence as a result of the history of marginalizing segments of the population sexual violence as an attempt at complete control of the victim The essays establish a clear link between historical political and literary constructs spanning the past five hundred years of Latin American history Close readings of political texts historical documents prose poetry and films employ identity theories postcolonial discourse and the principles of mimetic and sacrificial violence The volume adds to the ongoing critical investigation of the relationship between Latin American history and narrative and to the key role of representations of violence within that narrative tradition
