related topics to differential geometry and kinematics The foundations of geometry an area well established in Germany was also represented It is a pleasure to thank all the lecturers as well as other participants in the Geometry Symposium for their contribution to the success of the meeting We also thank the Minister für Wissenschaft und Forschung des Landes Nordrhein Westfalen and the University of Siegen for their generous support which helped make the Symposium so successful In order to make the contributions and results of the Symposium accessible to the general public the publication of a proceedings volume was planned The idea was to give a summary of a wide spectrum of research in geometry through survey articles and original research papers
