All My Sons Arthur Miller, 2011-10-06 In Joe and Kate Keller's family garden an apple tree a memorial to their son Larry lost in the Second World War has been torn down by a storm But his loss is not the only part of the family's past they can't put behind them Not everybody's forgotten the court case that put Joe's partner in jail or the cracked engine heads his factory produced which caused it and dropped twenty one pilots out of the sky

Mothering Our Boys (US Edition) Maggie Dent, 2018-11-01 Maggie is earthy and real full of love and knowledge especially on raising sons Steve Biddulph Maggie's perspective on raising boys is spot on She writes with humor and depth providing insight and strategies for many of the most important issues facing moms There is a lovely ease to her writing and a powerful honesty I hope every mother of a son and everyone else will read this book The future of the world to a great extent depends on how we raise our boys Michael Gurian New York Times Bestselling Author of *The Wonder of Boys* and *Saving Our Sons* If we can see the world through boys' eyes a little better we will make different choices in the way we mother them and we will find them less confusing and love them more deeply Mothers of sons are worried about raising their boys in a world where negative images of masculinity are front and centre of our media almost every day Not only that but statistically our boys are still struggling in many ways Even though we live in a time where we recognise that nothing in gender is fixed it remains a fact that the influence of a mother on her son is massive A mother of four sons herself Maggie Dent draws on her personal experience and over four decades work as a teacher counsellor and now author and speaker to help build understanding empathy and compassion for our boys Maggie shares her five key secrets that every mum needs to know and uses the voices of men she has worked with and surveyed to reveal what really matters in a boy's relationship with his mother and other mother figures Maggie is one of Australia's most popular parenting authors and educators and her seminars about boys have sold out all across Australia and in the UK She is finally sharing her insights her reflections and as always her humour around mothering boys to help you be the mum your son needs you to be

The Beginning of Wisdom Leon Kass, 2003-05-20 Imagine that you could really understand the Bible that you could read analyze and discuss the book of Genesis not as a compositional mystery a cultural relic or a linguistic puzzle palace or even as religious doctrine but as a philosophical classic precisely in the same way that a truth seeking reader would study Plato or Nietzsche Imagine that you could be led in your study by one of America's

preeminent intellectuals and that he would help you to an understanding of the book that is deeper than you d ever dreamed possible that he would reveal line by line verse by verse the incredible riches of this illuminating text one of the very few that actually deserve to be called seminal Imagine that you could get from Genesis the beginning of wisdom The Beginning of Wisdom is a hugely learned book that like Genesis itself falls naturally into two sections The first shows how the universal history described in the first eleven chapters of Genesis from creation to the tower of Babel conveys in the words of Leon Kass a coherent anthropology a general teaching about human nature that rivals anything produced by the great philosophers Serving also as a mirror for the reader s self discovery these stories offer profound insights into the problematic character of human reason speech freedom sexual desire the love of the beautiful pride shame anger guilt and death Something as seemingly innocuous as the monotonous recounting of the ten generations from Adam to Noah yields a powerful lesson in the way in which humanity encounters its own mortality In the story of the tower of Babel are deep understandings of the ambiguous power of speech reason and the arts the hazards of unity and aloneness the meaning of the city and its quest for self sufficiency and man s desire for fame immortality and apotheosis and the disasters these necessarily cause Against this background of human failure Part Two of The Beginning of Wisdom explores the struggles to launch a new human way informed by the special Abrahamic covenant with the divine that might address the problems and avoid the disasters of humankind s natural propensities Close eloquent and brilliant readings of the lives and educations of Abraham Isaac Jacob and Jacob s sons reveal eternal wisdom about marriage parenting brotherhood education justice political and moral leadership and of course the ultimate question How to live a good life Connecting the two parts is the book s overarching philosophical and pedagogical structure how understanding the dangers and accepting the limits of human powers can open the door to a superior way of life not only for a solitary man of virtue but for an entire community a life devoted to righteousness and holiness This extraordinary book finally shows Genesis as a coherent whole beginning with the creation of the natural world and ending with the creation of a nation that hearkens to the awe inspiring summons to godliness A unique and ambitious commentary a remarkably readable literary exegesis and philosophical companion The Beginning of Wisdom is one of the most important books in decades on perhaps the most important and surely the most frequently read book of all time
