Database Computing for Scholarly Research Sandra R. Schloen, Miller C. Prosser, 2023-12-23 This book discusses in detail a series of examples drawn from scholarly projects that use the OCHRE database platform Online Cultural and Historical Research Environment These case studies illustrate the wide range of data that can be managed with this platform and the wide variety of problems solved by OCHRE's item based graph data model The unique features and design principles of the OCHRE platform are explained and justified helping readers to imagine how the system could be used for their own data Data generated by studies in the humanities and social sciences is often semi structured fragmented highly variable and subject to many interpretations making it difficult to represent adequately in a conventional database The authors examine commonly used methods of data management in the humanities and offer a compelling argument for a different approach that takes advantage of powerful computational techniques for organizing scholarly information This book is a challenge to scholars in the humanities and social sciences asking them to expect more from technology as they pursue their research goals Written jointly by a software engineer and a research scholar each with many years of experience in applying database

methods to diverse kinds of scholarly data it shows how scholars can make the most of their existing data while going beyond the limitations of commonly used software tools to represent their objects of study in a more accurate nuanced and flexible way

Technology-Enhanced Learning Nicolas Balacheff, Sten Ludvigsen, Ton de Jong, Ard Lazonder, Sally Barnes, 2009-03-24 Technology enhanced learning is a timely topic the importance of which is recognized by educational researchers practitioners software designers and policy makers This volume presents and discusses current trends and issues in technology enhanced learning from a European research and development perspective This multifaceted and multidisciplinary topic is considered from four different viewpoints each of which constitutes a separate section in the book The sections include general as well as domain specific principles of learning that have been found to play a significant role in technology enhanced environments ways to shape the environment to optimize learners interactions and learning and specific technologies used by the environment to empower learners An additional section discusses the work presented in the preceding sections from a computer science perspective and an implementation perspective This book comes out of the work in Kaleidoscope a European Network of Excellence in which over 1 000 people from more than 90 institutes across Europe participate Kaleidoscope brings together researchers from diverse disciplines and cultures through their collaboration and sharing of scientific outcomes they are helping move the field of technology enhanced learning forward

SpecLab Johanna Drucker, 2009-08-01 Nearly a decade ago Johanna Drucker cofounded the University of Virginia's SpecLab a digital humanities laboratory dedicated to risky projects with serious aims In SpecLab she explores the implications of these radical efforts to use critical practices and aesthetic principles against the authority of technology based on analytic models of knowledge Inspired by the imaginative frontiers of graphic arts and experimental literature and the technical possibilities of computation and information management the projects Drucker engages range

from Subjective Meteorology to Artists Books Online to the as yet unrealized Patacritical Demon an interactive tool for exposing the structures that underlie our interpretations of text Illuminating the kind of future such experiments could enable SpecLab functions as more than a set of case studies at the intersection of computers and humanistic inquiry It also exemplifies Drucker s contention that humanists must play a role in designing models of knowledge for the digital age models that will determine how our culture will function in years to come [This Is Disciplinary Literacy](#) ReLeah Cossett

Lent,2015-08-27 Think you understand Disciplinary Literacy Think again In this important reference content teachers and other educators explore why students need to understand how historians novelists mathematicians and scientists use literacy in their respective fields ReLeah shows how to teach students to Evaluate and question evidence Science Compare sources and interpret events History Favor accuracy over elaboration Math Attune to voice and figurative language ELA
