Score					

Claim:
There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Answers For Geometry Note Taking Guide:

Resources in Education, 2000-04, **Guide to Examination Success** Frank Horace Jones, 1949 *Understanding and Evaluating Educational Research* James H. McMillan, Jon F. Wergin, 1998 Designed to supplement a course in research practices the text offers suggestions on how to evaluate and interpret research articles and reports L2 Writing in Secondary Classrooms Luciana C. de Oliveira, Tony Silva, 2013-03-20 Second language writers and the teaching of writing at the secondary level have received little attention compared with other skills such as reading Addressing this gap this volume uniquely looks at both adolescent L2 writing and the preparation of secondary teachers to work with this population of students Part I on adolescent L2 writers includes case studies looking at their literacy identities their trajectories in mainstream content area classes and their transition from high school to college Part II looks at academic issues The focus in Part III is L2 writing teacher education Taking a theoretically eclectic approach that can support a variety of pedagogies this book contributes significantly to understanding adolescent second language writers and to educating teachers to address these students specific needs *International Perspectives on the Teaching and Learning of Geometry in Secondary Schools* Patricio Herbst, Ui Hock Cheah, Philippe R. Richard, Keith Jones, 2018-04-27 This book presents current perspectives on theoretical and empirical issues related to the teaching and learning of geometry at secondary schools It contains chapters contributing to three main areas A first set of chapters examines mathematical epistemological and curricular perspectives A second set of chapters presents studies on geometry instruction and teacher knowledge and a third set of chapters offers studies on geometry thinking and learning Specific research topics addressed also include teaching practice learning trajectories learning difficulties technological resources instructional design assessments textbook analyses and teacher education in geometry Geometry remains an essential and critical topic in school mathematics As they learn geometry students develop essential mathematical thinking and visualization skills and learn a language that helps them relate to and interact with the physical world Geometry has traditionally been included as a subject of study in secondary mathematics curricula but it has also featured as a resource in out of school problem solving and has been connected to various human activities such as sports games and artwork Furthermore geometry often plays a role in teacher preparation undergraduate mathematics and at the workplace New technologies including dynamic geometry software computer assisted design software and geometric positioning systems have provided more resources for teachers to design environments and tasks in which students can learn and use geometry In this context research on the teaching and learning of geometry will continue to be a key element on the research agendas of mathematics educators as researchers continue to look for ways to enhance student learning and to understand student thinking and teachers decision making **Research in Education**, 1972-05 *PC Mag*, 1993-09-14 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and
