**Controversy of the Ages** Theodore Cabal, Peter Rasor, II, 2018-08-08 *Controversy of the Ages* carefully analyzes the debate by giving it perspective Rather than offering arguments for or against a particular viewpoint on the age of the earth the authors take a step back in order to put the debate in historical and theological context The authors of this book demonstrate from the history of theology and science controversy that believers are entitled to differ over this issue while still taking a stand against theistic evolution But by carefully and constructively breaking down the controversy bit by bit

they show why the age issue is the wrong place to draw a line in the sand      *Righting America at the Creation Museum* Susan L. Trollinger, William Vance Trollinger, 2016-05-15 In *Righting America at the Creation Museum* Susan L. Trollinger and William Vance Trollinger Jr take readers on a fascinating tour of the museum. The Trollingers vividly describe and analyze its vast array of exhibits, placards, dioramas, and videos from the Culture in Crisis Room where videos depict sinful characters watching pornography or considering abortion to the National Selection Room where placards argue that natural selection doesn't lead to evolution. The book also traces the rise of creationism and the history of fundamentalism in America.      *The Secret in the Backpack* Sharon Zoller, 2025-09-02 Has your faith in God been damaged by what you've been taught in science? In *The Secret in the Backpack* author Sharon Zoller presents information to breathe new life into your faith, demonstrating that school textbooks don't reflect the current scientific information. She discusses the spiritual and cultural consequences of being taught the world is a product of atheistic evolution and she reveals eleven topics from public school science texts that try to support that atheistic evolutionary view. These topics include peer-reviewed articles, rock, sedimentary rock, coal, whales, dinosaurs, similar DNA, developmental similarities, structural similarities, evolution, and natural selection, and fossils and transitional forms. Each quote from the textbook is followed by a section rich in gold nugget quotes from today's top scientists like Stephen Meyer, Michael Behe, and James Tour.      **Biology** John Moore, 2004-08 *Teacher Manual for Biology A Search for Order in Complexity*      *Four Views on Creation, Evolution, and Intelligent Design* Zondervan, 2017-11-21 Evolution or the broader topic of origins has enormous relevance to how we understand the Christian faith and how we interpret Scripture. *Four Views on Creation, Evolution, and Intelligent Design* presents the current state of the conversation about origins among evangelicals, representing four key positions: Young Earth Creationism, Ken Ham, Answers in Genesis, Old Earth Progressive Creationism, Hugh Ross, Reasons to Believe, Evolutionary Creation, Deborah B. Haarsma, BioLogos, Intelligent Design, Stephen C. Meyer, The Discovery Institute. The contributors offer their best defense of their position, addressing questions such as: What is your position on origins, understood broadly to include the physical universe, life, and human beings in particular? What do you take to be the most persuasive arguments in defense of your position? How do you demarcate and correlate evidence about origins from current science and from divine revelation? What hinges on answering these questions correctly? This book allows each contributor to not only present the case for his or her view but also to critique and respond to the critiques of the other contributors, allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ.      *Adam to Abraham* Robin Sampson, 2003-06 This multilevel K-12 Bible-focused unit study utilizes the Charlotte-Mason approach and the Internet. **Christian Tourist Attractions, Mythmaking, and Identity Formation** Erin Roberts, Jennifer Eyl, 2018-11-29 *Christian Tourist Attractions Mythmaking and Identity Formation* examines a sampling of contemporary Christian tourist attractions that position visitors as the inheritors of ancient sacred traditions and make claims about the truth of the historical narratives that they promote Rather than approaching these attractions as sacred expressions of religious experience or as uncontested accounts of history the book applies recent work on mythmaking and identity formation to argue that these presentations of the past function as strategic discourses that serve material concerns in the present From an approach informed by social and materialist theories of religion the volume draws upon a variety of methodological approaches that enable readers to understand the often bewildering array of objects claims demands and activities not to mention the seemingly endless array of gifts and personal items available for purchase that appear at attractions including Ark Encounter the Creation Museum the Holy Land Experience Bible Walk Museum Christian Zionist tours of Israel and the recently opened Museum of the Bible Discourse analysis practice theory rhetorical criticism and embodied theories of cognition help make sense not only of the Christian tourist attractions under examination but also of the ways that religion is entangled with contemporary social political and economic interests more broadly

**Modern Moralities** Harold Lerch,2022-08-01 Has the media influenced morality changing from what God ordained in the beginning We are being taught that homosexuality is acceptable that killing of a fetus is not murder the Bible is a collection of myths the creation account is impossible that the notion the earth is only 6

500 years old is laughable we evolved from lesser apes and were not created there was no world wide flood the story of Sodom and Gomorrah being destroyed by brimstone is a myth the Exodus of the Jews from Egypt never happened the Ark of the Covenant is supposedly some magic box that made the walls of Jericho fall impossible King David and his son King Solomon never existed Jesus was not resurrected from the dead Mary Magdalene was a prostitute Jesus and Mary Magdalene had a child this child and Jesus s bloodline are the holy grail and Mary Magdalene was the beloved disciple These are either from ignorance or are willing lies to pry us from our beliefs The Bible is still fact      **The Gospel of Climate Skepticism** Robin Globus Veldman, 2019-10-22 Why are white evangelicals the most skeptical major religious group in America regarding climate change Previous scholarship has pointed to cognitive factors such as conservative politics anti science attitudes aversion to big government and theology Drawing on qualitative fieldwork The Gospel of Climate Skepticism reveals the extent to which climate skepticism and anti environmentalism have in fact become embedded in the social world of many conservative evangelicals Rejecting the common assumption that evangelicals skepticism is simply a side effect of political or theological conservatism the book further shows that between 2006 and 2015 leaders and pundits associated with the Christian Right widely promoted skepticism as the biblical position on climate change The Gospel of Climate Skepticism offers a compelling portrait of how during a critical period of recent history political and religious interests intersected to prevent evangelicals from offering a unified voice in support of legislative action to address climate change
