Welch, 2014-09-19 This volume recreates the received notion of reflective equilibrium It reconfigures reflective equilibrium as both a cognitive ideal and a method for approximating this ideal The ideal of reflective equilibrium is restructured using the concept of discursive strata which are formed by sentences and differentiated by function Sentences that perform the same kind of linguistic function constitute a stratum The book shows how moral discourse can be analyzed into phenomenal instrumental and teleological strata and the ideal of reflective equilibrium reworked in these terms In addition the work strengthens the method of reflective equilibrium by harnessing the resources of decision theory and inductive logic It launches a comparative version of decision theory and employs this framework as a guide to moral theory choice It also recruits quantitative inductive logic to inform a standard of inductive cogency When used in tandem with comparative decision theory this standard can aid in the effort to turn the undesirable condition of reflective disequilibrium into reflective equilibrium *Turning Your Dreams into Realities* Glenn Arekion, 2015-01-02 I m living the dream is an expression that is often used but hardly ever experienced Much has been said about the importance of dreams and visions for a fulfilled life Yet there are more dissatisfied people today than ever This is because without wisdom strategies and disciplines visions remain grounded Many have not reached the lofty positions that their dreams had for them due to a lack of these three fundamental forces Solomon the most successful entrepreneurial king knew the keys to success In Ecclesiastes he said For a dream cometh through the multitude of business Modern translations render this verse as A dream comes through by much business much activities and painful efforts This means merely having a dream without activities strategies and certain disciplines implemented in your life will not trigger your dream to materialize In this book you will learn YOU are the number one enterprise you need to build How to destroy the excuses people use to abort their destiny The values of goals and diversities of goals How to manage your most precious resource time The ten characteristics of the diligent The million dollar habits you need to develop Wisdom from the ants the conies the locusts and the spiders How to turn your dreams into actionable steps You want to achieve something great in your life That is how God wired you God has given you the ability to dream in order to take you out of a small place into a wealthy place Learn the necessary keys to change your life
