Answers For Past Exam Papers For Unisa:

Responsible Research Practice Norma RA Romm, 2018-04-21 This book explores ways in which creative research practice can be explicitly and mindfully geared to make a difference to the quality of social and ecological existence. It offers a range of examples of how different research methods can be employed and re-tuned with this intention. The book suggests that what Romm names active research involves using the research space responsibly to open up new avenues for thinking and acting on the part of those involved in the inquiry and wider stakeholders. The book includes a discussion of a range of epistemological, ontological, methodological and axiological positions or paradigms that can be embraced by inquirers implicitly or explicitly. It details the contours of an epistemology where knowing is recognized to be grounded in social relations as a matter of ethics. While focusing on discussing the transformative paradigm and attendant view of research ethics, it considers to what extent the borders between paradigms can be treated as being permeable in creative and active inquiries. Apart from considering options for enhancing responsible research practice during the process of inquiry and reconsidering mixed research designs, the book also considers options for responsible theorizing that is inspirational for pursuing goals of social and ecological justice.

Pain Medicine and Management Mark S. Wallace, Peter Staats, 2004-03-05 A quick reference to the management of pain for specialists as well as general medical practitioners and residents. Written in a concise bulleted format, the content is limited to only the essential facts necessary for assessment and treatment of common pain conditions and presentations. A perfect review tool for both the anesthesia and pain medicine board exams.

Accountability in Social Research Norma Romm, 2007-05-08 In this book I have concentrated on drawing attention to various conceptions of accountability that might be brought to bear in judging the practice of social research. Much of the book is organized around making explicit the assumptions that influence what counts as proper research in society, including assumptions about how social inquirers might be held accountable. My focus is on reviewing discourses around the practice of professional inquiry with a view to reconsidering the way in which people create expectations for accountable social inquiry. My focus hereon is related to my concern that the manner in which judgments about researchers' accountability are made is not without social consequences for our way of living in society. I have approached the issues by beginning with a discussion of tenets of the position called positivism, so named by certain proponents, and by considering the view on accountability that is implied by adherence to these tenets. Briefly expressed, positivist argumentation suggests that researchers are required to do science in a manner that warrants their being considered indeed scientists. I use my discussion of accountability as seen within positivist argumentation to explicate ways in which alternative positions have arisen as ways of treating accountability issues. Through my way of comparing the various positions, I hope to provide some indication of the complexity of ethical and accountability issues in social inquiry.

Kleio, 1969 ECMLG 2019 15th European Conference on Management, Leadership and Governance Professor Anabela Mesquita, Professor Paulino

Silva,2019-11-14 Questions and Replies of the National Assembly South Africa. Parliament (1994-). National Assembly,2001 Claiming Identity Through Redefined Teaching in Construction Programs Mostafa, Sherif,Rahnamayiezekavat, Payam,2019-07-31 Without a rich learning source that presents state of the art pedagogy covering the key areas of contemporary practice the industrial field may fall out of line with the current times By reforming itself to embrace new norms such as social responsibility deploying modern construction methods including modular building and modernizing construction contracts the recent literary material will only positively influence the workforce of the world Claiming Identity Through Redefined Teaching in Construction Programs provides scholarly insights into the learning and teaching mechanisms developed at different institutions to address the ever changing attributes in the field of construction management Featuring topics that include artificial intelligence industrial law and operations management the book is ideal for educators industrial managers academics researchers and students Daniel - a South African Chronicle Daniel van der Merwe,2015-02-17 Despite being written mainly in the third person this book enables the perceptive reader to study a dramatic part of South Africas history through the experiences of the main protagonist Because of his legal background Daniel is able to see how an initially fair legal system is corrupted in order to serve the increasingly desperate needs of the White minority This is a mere backdrop however to a love story that grows closer to tragedy as time passes because the heroine is an alcoholic The arrival of the computer alters the career of the hero dramatically and sends him on some overseas adventures to learn more about the legal implications of the new machine As a leader of a missionary team to Malawi Daniel also gets to grips with people with a totally different background and a differing worldview The book is sensitive to background and atmosphere and the hero encapsulates some of this in a few poems that form part of the main text Jealousy that green eyed monster also rears its head occasionally and further complicates relationships **Corrupted** Jonathan D Jansen,2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won t be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity

contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Innovations Through Information Technology Information Resources Management Association. International Conference,2004-01-01 *Innovations Through Information Technology* aims to provide a collection of unique perspectives on the issues surrounding the management of information technology in organizations around the world and the ways in which these issues are addressed This valuable book is a compilation of features including the latest research in the area of IT utilization and management in addition to being a valuable source in support of teaching and research agendas **Unisa English Studies** University of South Africa. Department of English,1992 **Adapting Health Communication to Cultural Needs** Piet Swanepoel,Hans Hoeken,2008 The question of what constitutes effective health communication has been addressed mainly by scholars working in American and European cultural contexts Many people who could benefit most from effective health communication however come from different cultures A prime example is the threat posed by HIV AIDS to the people of South Africa Although it is generally acknowledged that health communication needs to be tailored to the target audience s characteristics with cultural background being one of the most salient ones little research has been done on how to achieve this In this book we bring together leading scholars in the field of health communication as well as communication scholars from South Africa As such it can serve as an example of the promises and the limitations of general health communication theories to local praxis as well as provide guidelines for the development of better health communication in South Africa **ECOOP '98 - Object-Oriented Programming** Eric Jul,1998-07-08 This book constitutes the refereed proceedings of the 12th European Conference on Object Oriented Programming ECOOP 98 held in Brussels Belgium in July 1998 The book presents 24 revised full technical papers selected for inclusion from a total of 124 submissions also presented are two invited papers The papers are organized in topical sections on modelling ideas and experiences design patterns and frameworks language problems and solutions distributed memory systems reuse adaption and hardware support reflection extensible objects and types and mixins inheritance and type analysis complexity Intelligent Computing Kohei Arai,2021-07-05 This book is a comprehensive collection of chapters focusing on the core areas of computing and their further applications in the real world Each chapter is a paper presented at the Computing Conference 2021 held on 15 16 July 2021 Computing 2021 attracted a total of 638 submissions which underwent a double blind peer review process Of those 638 submissions 235 submissions have been selected to be included in this book The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences We hope that readers find this volume interesting and valuable as it provides

the state of the art intelligent methods and techniques for solving real world problems We also expect that the conference and its publications is a trigger for further related research and technology improvements in this important subject The Calendar University of South Africa,1991 **ECRM 2019 18th European Conference on Research Methods in Business and Management** Prof. Anthony Stacey,2019-06-20 *Human Factors in Transportation* Gesa Praetorius, Charlott Sellberg and Riccardo Patriarca,2023-07-19 Proceedings of the 14th International Conference on Applied Human Factors and Ergonomics AHFE 2023 July 20 24 2023 San Francisco USA Algorithms ,1999 **Afrikaans +: Everything you need to obtain top marks** Marieta Nel,2019-02-01 Afrikaans is a learner friendly guidebook which caters for additional language learners who want to achieve better marks in Afrikaans This practical guide contains explanations in English and is filled to the brim with examples It explains tests and exams used for both the DBE and IEB and was written by a panel of educational experts who understand the needs of additional language learners This book is completely up to date The Afrikaanse Woordelys en Spelre ls AWS has just been re issued blindsiding many a teacher with the changes in Afrikaans grammar rules While the AWS is seen as the touchstone for Afrikaans language practitioners it could be a daunting book to use in the classroom Afrikaans was written with the most recent changes to the AWS in mind and presents these grammar rules in a clear practical manner Every chapter in the book also offers free online support exercises answers and examples which will be kept up to date by the panel The book contains six sections 1 Comprehension Begrip This explains how you should approach a comprehension test how to look for the answers and provides tips on how to understand the questions It also explains how to make summaries Visual texts such as cartoons graphs and maps are also explained 2 Grammar Taal This is a step by step guide to understanding the how and the why of Afrikaans grammar You will be guided with English explanations and Afrikaans examples on things like word order tenses adjectives adverbs time numbers plural and diminutive forms the negative active and passive voice pronouns participles and abbreviations There are sections offering basic knowledge to help the struggling learner through the exam But there are also more advanced sections for the learner who wants to get an A and for the teacher who wants to become familiar with all the changes in the AWS 3 Literature Literatuur Everything you need to know about prose drama short stories and poetry What is the difference between a metaphor and a simile Who is the protagonist and who the antagonist We use simple explanations and good examples of all these and other literature terms 4 Oral Mondeling The book contains practical pointers on how to prepare for different kinds of oral such as interviews prepared speeches introducing and thanking a speaker roleplay how to make a vlog and how to discuss the booklist you have to read for grade 12 Examples of all these are given and more are provided online 5 Vocabulary Woordeskat You will always need vocabulary for essays and orals With the most recent vocabulary on food technology life after school sport and lots more you will be well prepared 6 Written work Skryfwerk This section starts with a step by step approach to writing how to choose a topic how to do your planning what not to use in an essay and how to end your story The

examples of all the different types of written work essays long and short transactional writing and tips on each will help you to master each one Online you will be able to read through more examples **Proceedings of The 11th European Conference on Social Media** Susana Pinto,2025-06 The European Conference on Social Media ECSM is a well established academic conference held annually for over a decade with a focus on advancing research and dialogue around social media The primary aim of ECSM is to provide a platform for scholars researchers practitioners and industry professionals to share and discuss their findings on the multifaceted impacts of social media The conference emphasises the importance of understanding how social media influences various sectors including society education business and governance
