

Anti-Theft Front Door Lock Knobs

Anti-theft lock knobs are designed to prevent opening the door by pulling up on the bullet button. To unlock and open the front door from the outside, pull on the inside door handle.

Power Door Locks (Optional)

The power door lock control switches are located on the front doors in the armrests. Push the release button of the switch knob (marked "L") to lock the doors. To unlock both doors, push the depression of the switch knob (marked "U"). If you operate the doors with the power door locks engaged, the doors will remain locked. The manual door locks will override the power controls in case the power mechanism should ever fail.
