*Handbook of Social and Evaluation Anxiety* H. Leitenberg,2013-11-11 For a long time I have wanted to put together a book about social and evaluation anxiety Social evaluation anxiety seemed to be a stressful part of so many people's everyday experience It also seemed to be apart of so many of the clinical problems that I worked with Common terms that fit under this rubric include fears of rejection humiliation criticism embarrassment ridicule failure and abandonment Examples of social and evaluation anxiety include shyness social inhibition social timidity public speaking anxiety feelings of self consciousness and awkwardness in social situations test anxiety performance anxiety in sports theater dance or music shame guilt separation anxiety social withdrawal procrastination and fear of job interviews or job evaluations of asking someone out of not making a good impression or of appearing stupid foolish or physically unattractive In its extreme form social anxiety is a

behavior disorder in its own right social phobia This involves not only feelings of anxiety but also avoidance and withdrawal from social situations in which scrutiny and negative evaluation are anticipated Social evaluation anxiety also plays a role in other clinical disorders For example people with agoraphobia are afraid of having a panic attack in public in part because they fear making a spectacle of themselves Moreover even their dominant fears of going crazy or having a heart attack seem to reflect a central concern with social abandonment and isolation
