Principles and Basics of Advanced Athletic Training Vladimir Issurin, Michael Yessis, Ultimate Athlete Concepts, 2008

Advanced Sports Conditioning for Enhanced Performance IDEA Health & Fitness, 2002 *Advanced Strength and Conditioning* Anthony Turner, Paul Comfort, 2017-10-25 Becoming an effective strength and conditioning practitioner requires the development of a professional skills set and a thorough understanding of the scientific basis of best practice. Aimed at advanced students and beginning practitioners, this book explores the latest scientific evidence and applies it to exercise selection and programming choices across the full range of functional areas in strength and conditioning: from strength and power to speed and agility. With coverage of data analysis and performance feedback, both vital skills for the contemporary strength and conditioning coach, this concise but sophisticated textbook is the perfect bridge from introductory study to effective professional practice. Written by experts with experience in a wide variety of sports, its chapters are enhanced by extensive illustrations and address key topics such as fitness testing and data analysis, developing strength and power, motor skill acquisition and development strategies for competition, priming, monitoring, training load, fatigue and recovery. **Advanced Strength and Conditioning: An Evidence-based Approach** is a valuable resource for all advanced students and practitioners of strength and conditioning and fitness training. Advanced Sports Nutrition Dan Benardot, 2021 **Advanced Sports Nutrition** Third Edition offers research-based nutrition guidance for the athlete. It covers nutrition sources, fueling strategies for optimal performance, factors affecting nutrition needs, and plans for athletes in power, endurance, and combined power and endurance sports. **DS Performance Strength & Conditioning Training Program for Football, Agility, Advanced D.** F. J. Smith, 2016-12-02 A 12-week strength conditioning training program for Football focusing on agility conditioning for an advanced level. DS Performance have created an exclusive series of sport-specific strength conditioning training programmes that have underpinning evidence-based training methods which have been put in place to improve your performance for all ages and abilities. All programmes have been designed to develop each specific performance variable through the progression of intensity and volume. Along with your training program, this book contains a supporting guide to mobility training. This guide uses myofascial release, static stretching, and activation work to mobilise the major body parts used in training. It has been put in place to increase your mobility; it can also be used to support your warm-ups and cool-downs. To aid your training, we also included a series of tables to create your lifting percentages. These tables will help you work out your working percentages from 40% to 95%. The tables are broken down into 5% loads, all in kilograms, ranging from 10kg to 300kg. All programmes by DS Performance are 12 weeks in duration; we recommend that you do two six-week training blocks with a deloading week between the two training blocks. This will allow the body to recover, prepare you for the second training phase, and reduce any risk of injury. Football, like so many of the team sports, is a multi-directional explosive sport where a player's ability to perform skills at a multi-pace ever-changing environment is essential. So speed, strength, acceleration, agility, and

sheer power are all very important performance variables to develop in the modern game This is why our programmes have been designed to develop the key physical attributes for Football Covering the essential physical aspects to Football is just as important as putting the time in on the pitch Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning
