

This is a detailed star map of the Orion constellation, presented in a light blue and white color scheme. The map shows the constellation's characteristic features, including the Belt (three stars in a row) and the Sword (a line of stars and nebulae extending from the belt). Key stars are labeled with their names and Bayer designations: Betelgeuse (α), Rigel (β), Saiph (δ), and the stars of the Belt (ε, ζ, θ). The Orion Nebula (M42) is prominently shown at the tip of the sword. The map also includes labels for neighboring constellations: Taurus to the north, Gemini to the northeast, and Lepus to the south. A large, stylized 'N' is placed in the upper right corner, indicating North. The background is a light blue gradient, and the stars are represented by black dots of varying sizes, with some having names written next to them.
