Financial Inclusion Regulatory Practices in SADC Howard Chitimira, Tapiwa Warikandwa, 2023-05-25 Against a background of calls to prioritise the improvement of financial inclusion in Africa this book provides an analysis of current financial inclusion measures in Southern Africa Evaluating the existing strengths and weaknesses of financial inclusion in Africa it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region With a focus on South Africa Namibia Botswana and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by

unbanked and underbanked customers who are easy targets for cybercriminals due to low levels of digital literacy it looks into the regulation and promotion of financial inclusion in Southern Africa The book explores financial inclusion in the context of digital transformation in the 21st century examining the regulation and promotion of financial inclusion in the context of digital transformation as well as the challenges related to financial inclusion Suggesting improvements to aspects of company law securities and financial markets in the Southern African Development Community region the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region It will be essential reading for students and academics researching financial inclusion international economic law and development **Zimbabwe Press Mirror**, 2003 Digital Activism in Zimbabwe Tenford Chitanana, 2024-10-21 This book investigates the role of the internet and social media in political processes in non western and non democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony Africa Yearbook Volume 9 Andreas Mehler, Henning Melber, Klaas van Walraven, 2013-09-12 The Africa Yearbook covers major domestic political developments the foreign policy and socio economic trends in sub Sahara Africa all related to developments in one calendar year The Yearbook contains articles on all sub Saharan states each of the four sub regions West Central Eastern Southern Africa focusing on major cross border developments and sub regional organizations as well as one article on continental developments and one on African European relations While the articles have thorough academic quality the Yearbook is mainly oriented to the requirements of a large range of target groups students politicians diplomats administrators journalists teachers practitioners in the field of development aid as well as business people Including free access to the e book version The Africa Yearbook has won the ASA 2012 Conover Porter Book Award Beyond the Enclave Godfrey Kanyenze, 2011 Beyond the Enclave sets out to unravel the contradiction of a country Zimbabwe where a rich diverse resource base co exists with endemic poverty One reason lies in the colonial economy which was predicated on an ideology of

white supremacy creating an enclave formal economy employing one fifth of the labour force Yet over three decades after independence the non formal segment has become even more entrenched This book assesses Zimbabwe s economy through three main phases 1980 0 when a strong social policy framework proved difficult to sustain due to erratic growth and 1991 6 when structural adjustment demanded a market driven approach to development The third phase is characterized by crisis management leading to policy inconsistencies and reversals Not surprisingly such incoherence saw the economy descend into hyperinflation and paralysis in 2007 8 leading to the signing of the Global Political Agreement in September 2008 In the absence of formal dollarization economic recovery after the adoption of the multi currency regime has remained fragile leaving an estimated 70 per cent of the population outside the banking system This has further entrenched uneven enclave growth as the economy remains locked in a low income poverty trap There is a need to facilitate transition towards formality to promote decent jobs Furthermore a strategic developmental role for the state in the economy is now widely recognized as vital for development Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro poor and inclusive strategies which will contribute to the well being of all of its citizens and wise stewardship of its resources It offers suggestions on policy formulation implementation monitoring and evaluation in all sectors designed to promote inclusive growth and humane development

Sehoole,2013-10-14 This book was written with the purpose of analyzing the challenges faced by the post apartheid government in South Africa with regard to reform of higher education It covers the apartheid context of higher education resistance to the system and its ultimate demise democratic processes in post apartheid reform agenda and how this agenda was emptied of its radical content as a result of global and local pressures Highlighted are key constraints in the reform process including the compromise pact agreed upon between the apartheid government and the ruling African National Congress the rapidly globalizing environment underpinned by neoliberal principles within which South Africa s transition took place shifts in macro economic policies of government towards neo liberal policy the inheritance of the bureaucracy and the inexperience of new government officials These are presented in a narrative style that combines the author s experience the voices of key players involved and important data from a range of documentary sources This is the first single authored book in post apartheid South African that has systematically looked at higher education reform **The Department of State Bulletin** ,1988 The official monthly record of United States foreign policy *Fast Track Land Occupations in Zimbabwe* Kirk Helliker,Sandra Bhatasara,Manase Kudzai Chiweshe,2021-01-11 This book offers the first detailed scholarly examination of the nation wide land occupations which spread across the Zimbabwean countryside from the year 2000 and led to the state s fast track land reform programme In an innovative way it highlights the decentralized character of the

occupations by recognizing significant spatial variation around a number of key themes including historical memory modes of mobilization and gender A case study of the land occupations in Mashonaland Central Province based on original research adds empirical weight to the argument In further identifying and understanding the specificities and complexities of the land occupations the book also frames them by way of a nuanced comparative historical analysis of the three zimurenga It thus examines the land occupations referred to likely controversially as the third chimurenga with reference to the original anti colonial revolt from the 1890s the first chimurenga and the war of liberation in the 1970s the second chimurenga Further the book engages critically with the ruling party s chimurenga narrative and the hegemonic understanding of the land occupations within Zimbabwean studies This book is a crucial read for all scholars and students of post 2000 land and politics in Zimbabwe but also for those more broadly interested in historical comparative analyses of land struggles in Zimbabwe and beyond
