14 November Grade10 Mpumalanga:

Gaining Ground? Deborah James, 2007-03-12 *Gaining Ground Rights and Property in South African Land Reform* examines how land reform policy and practice in post apartheid South Africa have been produced and contested Set in the province of Mpumalanga the book gives an ethnographic account of local initiatives and conflicts showing how the poorest sectors of the landless have defied the South African state s attempts to privatize land holdings and create a new class of African farmers They insist that the rights based rather than the market driven version of land reform should prevail and that land restitution was intended to benefit all Africans However their attempts to gain land access often backfire Despite state assurances that land reform would benefit all illegal land selling and brokering are pervasive representing one of the only feasible routes to land access by the poor This book shows how human rights lawyers NGOs and the state in interaction with local communities have tried to square these symbolic and economic claims on land Winner of the inaugural Elliott P Skinner Book Award of the Association of Africanist Anthropology 2008 *Questions and Replies of the National Council of Provinces* South Africa. Parliament (1994-). National Council of Provinces, 2002 Elusive Promises Simone Abram, Gisa Weszkalnys, 2013-07-01 Planning in contemporary democratic states is often understood as a range of activities from housing to urban design regional development to economic planning This volume sees planning differently as the negotiation of possibilities that time offers space It explores what kind of promise planning offers how such a promise is made and what happens to it through time The authors all leading anthropologists examine the time and space creativity and agency authority and responsibility and conflicting desires that plans attempt to control They show how the many people involved with planning deal with the discrepancies between what is promised and what is done The comparative essays offer insight into the expected and unexpected outcomes of planning from visionary utopias to bureaucratic dystopia or something in between how the future is envisioned at the outset and what actual work is done and how it affects people s lives The Hindu Index , 2003 **Democracy and Governance Review** Yvonne G. Muthien, Meshack M. Khosa, Bernard Magubane, 2000 Authoritarian regimes of various sorts have crumbled worldwide to give way to liberal constitutional democracies Prerequisites for the consolidation of the new democracies are regular free and fair elections granting political parties legitimate authority and citizens protection by the rule of law **This Week in South Africa** , 1995

Assemblages of Belonging Craniv Boyd, 2025-11-07 Ndebele material culture in South Africa was appropriated and commodified during the apartheid era Craniv Boyd traces Ndebele art back to its origins and examines its creation as enduring practices of identity construction and of cultural articulation placing particular emphasis on mural painting and beadwork He traces the historical trajectories of these art forms and considers their ongoing transformation in contemporary contexts Focusing on the creative labor of Ndebele women this study conceptualizes these practices as assemblages of belonging that mediate personal and collective identity sustain cultural continuity and navigate the shifting dynamics of

heritage modernity and global circulation

Mud to bricks: A review of school infrastructure spending and delivery

Carmen Abdoll, Conrad Barberton, 2014-07-04 The Centre for Child Law commissioned this study by Cornerstone Economic Research to track school infrastructure spending and delivery The report written by Carmen Abdoll and Conrad Barberton makes the concerning finding that the national Department of Basic Education has woefully underspent the School Infrastructure Backlog grant for two years running In 2011 2012 spending was a little over 10 per cent and only at 23 per cent in 2012 2013 at the end of the third quarter The ASIDI target for the number of schools to be built in 2011 2012 and 2012 2013 was 49 However only 10 had been completed by the end of the first year They predict that if the DBE continues at the same delivery rate a realistic timeframe for the eradication of schools with inappropriate structures is probably 2023 24 They make recommendations which if followed could shorten the delay significantly This study shows the importance of monitoring and evaluating progress against court orders and out of court settlements to ensure that the right to a basic education is made real
