

# Grade 11 Data Handling

In this chapter you:

- Draw histograms.
- Draw frequency polygons.
- Draw ogives (cumulative frequency curves).
- Calculate variance and standard deviation of ungrouped data.
- Determine whether data is symmetric or skewed.
- Identify the values of the outliers.

## WHAT YOU LEARNED ABOUT DATA HANDLING IN GRADE 10

In Grade 10 you covered the following data handling concepts:

- Measures of central tendency of lists of data, of data in frequency tables and of data in grouped frequency tables.
- The range, percentiles, quartiles, interquartile and semi-interquartile range.
- The five number summary and box-and-whisker diagram.
- Using statistical summaries (measures of central tendency and dispersion) to analyse and make meaningful comments on the context associated with the given data.

## STATISTICAL GRAPHS

- ✓ Organised data can often be presented in graphical form.
  - Statistical graphs are used to describe data or to analyse it.
  - The purpose of graphs in statistics is to communicate the data to the viewers in pictorial form. It is easier for most people to understand data when it is presented as a graph than when it is presented numerically in tables.
- ✓ In earlier grades you dealt with the following graphs.
  - Bar graphs and double bar graphs
  - Histograms
  - Pie charts
  - Broken-line graphs.
