OECD Environmental Performance Reviews: Brazil 2015 OECD,2015-11-04 This report is the first OECD review of Brazil's environmental performance. It evaluates progress towards sustainable development and green growth with a focus on conservation and sustainable use of biodiversity and protected areas.

The Handbook of Evolutionary Psychology, Volume 1 David M. Buss,2015-09-29 The indispensable reference tool for the groundbreaking science of evolutionary psychology. Why is the mind designed the way it is? How does input from the environment interact with the mind to produce behavior? These are the big unanswered questions that the field of evolutionary psychology seeks to explore. The Handbook of Evolutionary Psychology is the seminal work in this vibrant, quickly developing new discipline. In this thorough revision and expansion, luminaries in the field provide an in-depth exploration of the foundations of evolutionary psychology and explain the new empirical discoveries and theoretical developments that continue at a breathtaking pace. Evolutionary psychologists posit that the mind has a specialized and complex structure just as the body has a specialized and complex structure. From this important theoretical concept arises the vast array of possibilities that are at the core of the field, which seeks to examine such traits as perception, language, and memory from an evolutionary perspective. This examination is intended to determine the human psychological traits that are the products of sexual and natural selection and, as such, to chart and understand human nature. Join the discussion of the big questions addressed by the burgeoning field of evolutionary psychology. Explore the foundations of evolutionary psychology from theory and methods to the thoughts of EP critics. Discover the psychology of human survival, mating, parenting, cooperation, and conflict, culture, and more. Identify how evolutionary psychology is interwoven with other academic subjects and traditional psychological disciplines. The Handbook of Evolutionary Psychology is the definitive guide for every psychologist and student interested in keeping abreast of new ideas in this quickly developing field.

OECD Regional Development Studies: How's Life in Your Region? Measuring Regional and Local Well-being for Policy Making OECD,2014-10-06 This report presents the OECD analytical framework for measuring well-being at the regional level, as well as internationally comparable indicators on 9 well-being dimensions for 362 regions across 34 OECD countries.

OECD Environmental Performance Reviews: New Zealand 2017 OECD,2017-03-20 OECD Environmental Performance Reviews provide independent assessments of countries' progress towards their environmental policy objectives. Reviews promote peer learning, enhance government accountability, and provide targeted recommendations aimed at improving environmental performance.
