2014 Exemplars Grade Caps:

Exemplars of Assessment in Higher Education, Volume Two Jane Marie Souza, Tara A. Rose, 2023-11-09 In this second volume of the successful Exemplars of Assessment in Higher Education editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions including international contributions Building upon the work of the first volume the case studies in this book reflect the changes in assessment and higher education in the post Covid education environment The institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas career readiness distance education diversity equity and inclusion or general education Each part of the book discusses one of these four areas with chapters that feature real life examples from the educators who teach at the college or university Featuring a Foreword by AAC U President Lynn Pasquerella the work highlighted in this book is also aligned with AAC U s Valid Assessment of Learning in Undergraduate Education VALUE initiative to help educators make the best decisions about measuring student learning This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices A Co Publication with AAC U

Readers Front & Center Dorothy J. Barnhouse, 2014 Every teacher wants and expects his or her students to be reading increasingly complex texts yet sometimes the gap between our expectations and our students abilities seems wide and deep It s tempting to look at that gap and step in to fill it for them but then we d be doing most of the heavy lifting the understanding analysis and interpretation that our students should be learning for themselves So how can teachers reverse this trend and ensure that our students are fully entering absorbing and experiencing texts How can we make sure they re making complex meaning independently and proficiently as the Common Core State Standards require Readers Front Center answers these questions by framing instruction that starts with the student You ll learn how to do the following Research and listen to your students so your teaching can be more targeted Notice and name your students thinking so they can see what complex thinking looks and sounds like Set your students up to be problem solvers Prepare your students to do increasingly complex thinking in increasingly complex texts Filled with examples of one on one conferences small groups and whole class scenarios this essential book provides an accessible and inspiring model of how and why we need to put students at the front and center of our teaching

Speech Perception and Spoken Word Recognition Gareth Gaskell, Jelena Mirković, 2016-10-04 Speech Perception and Spoken Word Recognition features contributions from the field s leading scientists and covers recent developments and current issues in the study of cognitive and neural mechanisms that take patterns of air vibrations and turn them magically into meaning The volume makes a unique theoretical contribution in linking behavioural and cognitive neuroscience research and cutting across traditional strands of study such as adult and developmental processing The book Focusses on the state of the art in the study of speech perception and spoken word recognition Discusses the interplay between behavioural and cognitive neuroscience evidence and between adult and

developmental research Evaluates key theories in the field and relates them to recent empirical advances including the relationship between speech perception and speech production meaning representation and real time activation and bilingual and monolingual spoken word recognition Examines emerging areas of study such as word learning and time course of memory consolidation and how the science of human speech perception can help computer speech recognition Overall this book presents a renewed focus on theoretical and developmental issues as well as a multifaceted and broad review of the state of research in speech perception and spoken word recognition Particularly interested readers will be researchers of psycholinguistics and adjoining fields as well as advanced undergraduate and postgraduate students
