aerodynamic drag Chopping the top increased the aerodynamic efficiency to the point that the coupes were competitive with the roadsters Tops aren't often chopped for those reasons today However when viewing the works of art that have been created by the best chopping masters it's clear that enhanced aesthetics is the only reason that is needed Chopping a top may seem simple at first especially if you think that old tops are mostly square but it is not The process of chopping a top severely alters the angles of the A pillars the intersections where metal meets at the C pillars and the rake and fitment of the glass In *How to Chop Tops* hot rod expert and historian Tony Thacker takes you through the process of chopping a top Individual chapters feature a variety of chops that have been performed by the industry's most talented fabricators The most popular candidates for this modification are covered including Ford Model As Model Ts 1932 3 window and 5 window coupes 1933s 1934s and Shoeboxes Featured industry experts include Rick Lefever Evin and Justin Veazie the Kennedy Brothers Bobby Walden Troy Ladd's Hollywood Hot Rods Rolling Bones Roy Brizio Cornfield Customs Max Grundy and more Whether you want to give chopping a try or you just want to see how it's done before hiring a professional this book is a valuable addition to your library
