Computational Intelligence-based Time Series Analysis Dinesh C. S. Bisht, Mangey Ram, 2022-11-30 The sequential analysis of data and information gathered from past to present is called time series analysis Time series data are of high dimension large size and updated continuously A time series depends on various factors like trend seasonality cycle and irregular data set and is basically a series of data points well organized in time Time series forecasting is a significant area of machine learning There are various prediction problems that are time dependent and these problems can be handled through time series analysis Computational intelligence CI is a developing computing approach for the forthcoming several years CI gives the liveness to model the problem according to given requirements It helps to find swift solutions to the problems arising in numerous disciplines These methods mimic human behavior The main objective of CI is to develop intelligent machines to provide solutions to real world problems which

are not modelled or are too difficult to model mathematically This book aims to cover the recent advances in time series and applications of CI for time series analysis Intelligent Software Defect Prediction Xiao-Yuan Jing,Haowen Chen,Baowen Xu,2024-01-17 With the increasing complexity of and dependency on software software products may suffer from low quality high prices be hard to maintain etc Software defects usually produce incorrect or unexpected results and behaviors Accordingly software defect prediction SDP is one of the most active research fields in software engineering and plays an important role in software quality assurance Based on the results of SDP analyses developers can subsequently conduct defect localization and repair on the basis of reasonable resource allocation which helps to reduce their maintenance costs This book offers a comprehensive picture of the current state of SDP research More specifically it introduces a range of machine learning based SDP approaches proposed for different scenarios i e WPDP CPDP and HDP In addition the book shares in depth insights into current SDP approaches performance and lessons learned for future SDP research efforts We believe thesetheoretical analyses and emerging challenges will be of considerable interest to all researchers graduate students and practitioners who want to gain deeper insights into and or find new research directions in SDP It offers a comprehensive introduction to the current state of SDP and detailed descriptions of representative SDP approaches

Proceedings of the Twelfth International Conference on Management Science and Engineering Management Jiuping Xu,Fang Lee Cooke,Mitsuo Gen,Syed Ejaz Ahmed,2018-06-25 This proceedings book is divided in 2 Volumes and 8 Parts Part I is dedicated to Decision Support System which is about the information system that supports business or organizational decision making activities Part II is on Computing Methodology which is always used to provide the most effective algorithm for numerical solutions of various modeling problems Part III presents Information Technology which is the application of computers to store study retrieve transmit and manipulate data or information in the context of a business or other enterprise Part IV is dedicated to Data Analysis which is a process of inspecting cleansing transforming and modeling data with the goal of discovering useful information suggesting conclusions and supporting decision making Part V presents papers on Operational Management which is about the plan organization implementation and control of the operation process Part VI is on Project Management which is about the initiating planning executing controlling and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time in the field of engineering Part VII presents Green Supply Chain which is about the management of the flow of goods and services based on the concept of low carbon Part VIII is focused on Industry Strategy Management which refers to the decision making and management art of an industry or organization in a long term and long term development direction objectives tasks and policies as well as resource allocation **Machine Intelligence** Pethuru Raj,P Beulah Soundarabai,Peter Augustine,2023-10-03 Machines are being systematically empowered to be interactive and intelligent in their operations offerings and outputs There are pioneering Artificial Intelligence AI technologies and tools Machine and Deep Learning ML DL algorithms along with their enabling

frameworks libraries and specialized accelerators find particularly useful applications in computer and machine vision human machine interfaces HMIs and intelligent machines Machines that can see and perceive can bring forth deeper and decisive acceleration automation and augmentation capabilities to businesses as well as people in their everyday assignments Machine vision is becoming a reality because of advancements in the computer vision and device instrumentation spaces Machines are increasingly software defined That is vision enabling software and hardware modules are being embedded in new generation machines to be self surroundings and situation aware Machine Intelligence Computer Vision and Natural Language Processing emphasizes computer vision and natural language processing as drivers of advances in machine intelligence The book examines these technologies from the algorithmic level to the applications level It also examines the integrative technologies enabling intelligent applications in business and industry Features Motion images object detection over voice using deep learning algorithms Ubiquitous computing and augmented reality in HCI Learning and reasoning in Artificial Intelligence Economic sustainability mindfulness and diversity in the age of artificial intelligence and machine learning Streaming analytics for healthcare and retail domains Covering established and emerging technologies in machine vision the book focuses on recent and novel applications and discusses state of the art technologies and tools

Flow-Induced Acoustics at Near-Stall Conditions in an Automotive Turbocharger Compressor Roberto Navarro

García,2018-01-10 This thesis offers new insights into the fluid flow behavior of automotive centrifugal compressors operating under near stall conditions Firstly it discusses the validation of three dimensional computational fluid dynamics CFD unsteady simulations against acoustic experimental measurements using an original procedure based on plane wave pressure decomposition It then examines the configuration of the CFD cases highlighting the key parameters needed for a successful calculation Moreover it describes both the compressor mean and unsteady flow field from best efficiency to near surge operating points Lastly it provides readers with explanations of the various phenomena that arise when the mass flow rate is reduced and the compressor is driven to poor and noisy performance Written for students researchers and professionals who want to improve their understanding of the complex fluid flow behavior in centrifugal compressors the thesis offers valuable practical insights into reducing the acoustic emissions of turbochargers 17 Year-wise CTET Paper 2 (Mathematics & Science) Previous Year Solved Papers (2023 - 2011) - Class 6 - 8 Teachers - 5th English Edition | Central Teacher Eligibility Test PYQs Question Bank , The updated 5th edition of the book 17 YEAR WISE CTET Paper 2 Mathematics Science Solved Papers 2023 2011 Class 6 8 English Edition contains detailed Solutions to the Past 17 Solved Papers of the CTET exam from 2011 to 2023 The past 17 CTET Solved papers included are June 2011 Jan Nov 2012 July 2013 Feb Sep 2014 Feb Sep 2015 Feb Sep 2016 Papers Dec 2018 July Dec 2019 Dec 2020 Dec Jan 2021 Dec Jan 2022 Aug 2023 The detailed solutions are provided immediately after each test Solutions are provided for each question The languages covered in the tests are English 1st language and Hindi 2nd language The book is 100% useful for UPTET HTET MPTET CGTET UKTET HPTET BTET PTET and other STET Exams **Proceedings of the International Conference on Data Engineering 2015 (DaEng-2015)** Jemal H. Thai,Nam P. Nguyen,Huawei Shen,2015-07-30 This book constitutes the refereed proceedings of the 4th International Conference on Computational Social

Networks CSoNet 2015 held in Beijing China in August 2015 The 23 revised full papers and 3 short papers presented together with 2 extended abstracts were carefully reviewed and selected from 101 submissions and cover topics on social information diffusion network clustering and community structure social link prediction and recommendation and social network structure analysis Advances in Artificial Intelligence Yasufumi Takama, Naohiro Matsumura, Katsutoshi Yada, Mitsunori Matsushita, Daisuke Katagami, Akinori Abe, Hisashi Kashima, Toshihiro Hiraoka, Takahiro Uchiya, Rafal Rzepka, 2022-02-25 This book contains extended versions of research papers presented at the international sessions at the 35th Annual Conference of the Japanese Society for Artificial Intelligence JSAI2021 which was held online from June 8 11 2021 The JSAI annual conferences are considered key events for our organization and the international sessions held at these conferences play a key role for the society in its efforts to share Japan's research on artificial intelligence with other countries The topics of the international sessions in JSAI2021 cover five categories knowledge engineering machine learning agents robots and real worlds and human interface and education aid From the papers submitted to those categories papers of high quality were selected through the strict reviewing procedure As a result 19 papers are included in this book From this book readers can get an overview of recent Japan's research on artificial intelligence *Applications + Practical Conceptualization + Mathematics = fruitful Innovation* Robert S. Anderssen, Philip Broadbridge, Yasuhide Fukumoto, Kenji Kajiwara, Tsuyoshi Takagi, Evgeny Verbitskiy, Masato Wakayama, 2015-10-11 This book is a collection of papers presented at the conference Forum Math for Industry 2014 for which the unifying theme was Applications Practical Conceptualization Mathematics fruitful Innovation in October 2014 This epigram encapsulates the dynamics of the process that takes an application through to an innovation Industrial mathematics can be viewed as the causal engine that implements the epigram by taking an Application such as input and convolving it with a mixture of Practical Conceptualization and Mathematics to generate a fruitful Innovation as output The book illustrates various aspects of the two way interaction between applications and their association highlighting how practical conceptualization assists with the linking of the question that encapsulates the current application to the relevant mathematics The contents of this volume address productive and successful interaction between industry and mathematicians as well as the cross fertilization and collaboration that result when mathematics is involved with the advancement of science and technology **Proceedings of the First International Forum on Financial Mathematics and Financial Technology** Zhiyong Zheng, 2021-02-08 This book contains high quality papers presented at the First International Forum on Financial Mathematics and Financial Technology With the rapid development of FinTech the in depth integration between mathematics finance and advanced technology is the general trend This book focuses on selected aspects of the current and upcoming trends in FinTech In detail the included scientific papers focus on financial mathematics and FinTech presenting the innovative mathematical models and state of the art technologies such as deep learning with the aim to improve our financial analysis and decision making and enhance the quality of financial

services and risk control The variety of the papers delivers added value for both scholars and practitioners where they will find perfect integration of elegant mathematical models and up to date data mining technologies in financial market analysis

Mathematics Education in the Early Years Martin Carlsen, Ingvald Erfjord, Per Sigurd Hundeland, 2020-03-13 This book gives insights in the vivid research area of early mathematics learning The collection of selected chapters mirrors the research topics presented at the fourth POEM conference in May 2018 Thematically the volume reflects the importance of this evolving area of research which has begun to attract attention in the spheres of education and public policy due to increased interest in early years learning The research foci of the chapters comprise children s mathematical reasoning early years mathematics teaching and the role of parents for children s mathematical development The 2018 conference included a wider range of researchers than previous years *Study Guide for CTET Paper 2 (Class 6 - 8 Teachers) Mathematics/*
