MARKING GUIDELINES

ACCOUNTING (PAPER 1)

12 pages

MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a 0.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

Human Rights on the Edge Heather Smith-Cannoy,Tricia Redeker Hepner,2023-06-06 This book grapples with the challenges inherent in an uncertain period for global human rights and explores the future of international human rights law and practice Many Western scholars are increasingly pessimistic about the future of international human rights law However the contributions to this volume demonstrate that far from collapsing in the face of duress the concept of human rights has endured despite contractions and the spectre of co option and manipulation by the powerful In addition law is a malleable tool that is deployed in novel ways to promote human rights The book illustrates that the power of human rights lies not in their essentialized transcendence of time culture and context but in their enduring promise that a more just world can emerge from sustained and creative struggle through against and at the margins of states law and institutions The key questions to emerge are not whether human rights law and practice will survive but rather what are the forces that sustain revitalize and transform them And what are human rights in the process of becoming This book will be of immense interest to those studying and researching across Politics Human Rights Gender and Law It was originally published as a special issue of the Journal of Human Rights
