**ICICKM2014-Proceedings of the 11th International Conference on Intellectual Capital, Knowledge
Management and Organisational Learning** Jim Rooney,2014-10-17 These proceedings represent the work of researchers

ICICKM 2014 which this year is being held at The University of Sydney Business School The University of Sydney Australia

University of Sydney Australia The conference will be opened with a keynote by Goran Roos Advanced Manufacturing
Council Adelaide Australia who will address the topic of Intellectual capital in Australia Economic development in a high cost
economy The second day will be opened with a from James Guthrie University of Sydney Australia on the topic of Intellectual
Capital and the Public Sector Research Past Present and Future **Approaching Equality** Roger A. McCain,2017-05-26
Drawing on some recent research especially that of Piketty and his associates and on older ideas particularly from Sir Arthur
Lewis Roger McCain proposes policies that together would aim to reverse the observed tendency towards the concentration
of wealth in market economies thus approach equality The shortcomings and dangers of rising wealth inequality are
discussed both from the point of view of increasing instability and of equalitarian values **The effect of land inheritance
on youth employment and migration decisions: Evidence from rural Ethiopia** Kosec, Katrina,Ghebru,
Hosaena,Holtemeyer, Brian,Mueller, Valerie,Schmidt, Emily,2017-03-28 In Ethiopia there are two binding forces push and
pull that deserve attention when it comes to youth occupational and spatial mobility choices and the national land use and
transfer policy On the one hand the fact that the land rental market in Ethiopia is supply constrained due to market and
policy distortions marginalizes youth and serves as a push factor leading them to look elsewhere for a livelihood strategy On
the other hand the regulatory conditions and restrictions attached to land use and inheritance rights may serve as a pull
factor and force youth to be tied to the rural and or farming sector Our study thus aims to explore how youth land access
both inheritance and market based affects their migration and employment decisions We explore this question in the context
of rural Ethiopia using panel data from 2010 and 2014 We find that larger expected land inheritances significantly lower the
likelihood of long distance permanent migration and of permanent migration to urban areas during this time Inheriting more

land is also associated with a significantly higher likelihood of employment in agriculture and a lower likelihood of employment in the nonagricultural sector Conversely the decision to attend school is unaffected These results appear to be most heavily driven by males and by the older half of our youth sample We also find several mediating factors matter Land inheritance plays a much more pronounced role in predicting rural to urban permanent migration and nonagricultural sector employment in areas with less vibrant land markets and in relatively remote areas those far from major urban centers Overall the results reaffirm the notion that push factors dominate pull factors in dictating occupational and migration decisions in Ethiopia and highlight youth preferences to use migration or non agricultural employment as a last resort after exhausting other means of accessing land such as temporary land rental
