

11. The differentiation between 'evaluate' and 'critically evaluate' can be explained as follows:
- 11.1 When 'evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (positive and negative) stance, e.g. **Positive:** 'CIDA eliminates time and costs spent✓ on lengthy civil court proceedings.'✓
 - 11.2 When 'critically evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (positive and negative) stance. In this instance, candidates are also expected to support their responses with more depth, e.g. 'CIDA eliminates time and costs spent✓ on lengthy civil court proceedings✓, because the employer will not be liable for compensation to the employee for injuries sustained during working hours as long as it can be proved that the business was not negligent.'✓

NOTE:

- 1. The above could apply to 'analyse' as well.
- 2. Note the placing of the tick (✓) in the allocation of marks.

12. The allocation of marks must be informed by the nature of the question, cognitive verb used, mark allocation in the marking guidelines and the context of each question.

Cognitive verbs, such as:

- 12.1 Advise, name, state, mention, outline, motivate, recommend, suggest, (list not exhaustive) do not usually require much depth in candidates' responses. Therefore, the mark allocation for each statement/answer appears at the end.
 - 12.2 Describe, explain, discuss, elaborate, compare, distinguish, differentiate, justify, devise, analyse, evaluate, critically evaluate (list not exhaustive) require a greater depth of understanding, application and reasoning. Therefore, the marks must be allocated more objectively to ensure that assessing is conducted according to established norms so that uniformity, consistency and fairness are achieved.
13. Mark only the **FIRST** answer where candidates offer more than one answer for **SECTION B** and **C** questions that require one answer.
14. **SECTION B**
- 14.1 If for example, **FIVE** facts are required, mark the candidate's **FIRST FIVE** responses and ignore the rest of the responses. Indicate by drawing a line across the unmarked portion or use the word 'Cancel'.
- NOTE:** This only applies to questions where the number of facts is specified.
- 14.2 If two facts are written in one sentence, award the candidate **FULL** credit. Point 14.1 above still applies.
 - 14.3 If candidates are required to provide their own examples/views, brainstorm this to come up with alternative answers.

Bureau,2019-01-31 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary Anticorruption in History Ronald Kroeze,André Vitória,Guy Geltner,2018

Anticorruption in History is a timely and urgent book corruption is widely seen today as a major problem we face as a global society undermining trust in government and financial institutions economic efficiency the principle of equality before the law and human wellbeing in general Corruption in short is a major hurdle on the path to Denmark a feted blueprint for stable and successful statebuilding The resonance of this view explains why efforts to promote anticorruption policies have proliferated in recent years But while the subject of corruption and anticorruption has captured the attention of politicians scholars NGOs and the global media scant attention has been paid to the link between corruption and the change of anticorruption policies over time and place with the attendant diversity in how to define identify and address corruption Economists political scientists and policy makers in particular have been generally content with tracing the differences between low corruption and high corruption countries in the present and enshrining them in all manner of rankings and indices The long term trends potentially undergirding the position of various countries plays a very small role Such a historical approach could help explain major moments of change in the past as well as reasons for the success and failure of specific anticorruption policies and their relation to a country s image of itself or as construed from outside as being more or less corrupt It is precisely this scholarly lacuna that the present volume intends to begin to fill The book addresses a wide range of historical contexts Ancient Greece and Rome Medieval Eurasia Italy France Great Britain and Portugal as well as studies on anticorruption in the Early Modern and Modern era in Romania the Ottoman Empire the Netherlands Germany Denmark Sweden and the former German Democratic Republic **Illiberal China** Daniel F. Vukovich,2018-07-13 This book analyzes the intellectual political culture of post Tiananmen China in comparison to and in conflict with liberalism inside and outside the P R C How do mainland politics and discourses challenge our own chiefly liberal and anti statist political frameworks To what extent is China paradoxically intertwined with a liberal economism How can one understand its general refusal of liberalism as well as its frequent direct responses to electoral democracy universalism Western media and other normative forces Vukovich argues that the Party state poses a challenge to our understandings of politics globalization and even progress To be illiberal is not necessarily to be reactionary and vulgar but more interestingly to be anti liberal and to seek alternatives to a degraded liberalism In this way Chinese politics illuminate the global conjuncture and may have lessons in otherwise bleak times **Arbitration of International Mining Disputes** Henry G. Burnett,2017 **The Routledge Handbook of Hospitality Studies** Conrad Lashley,2016-11-10 In recent years there has been a growing interest in the study of hospitality as a social phenomenon This interest has tended to arrive from two communities The first comprises hospitality academics interested in exploring the wider meanings of hospitality as a way of better understanding

guest and host relations and its implications for commercial settings The second comprises social scientists using hosts and guests as a metaphor for understanding the relationship between host communities and guests as people from outside the community migrants asylum seekers and illegal immigrants The Routledge Handbook of Hospitality Studies encourages both the study of hospitality as a human phenomenon and the study for hospitality as an industrial activity embracing the service of food drink and accommodation Developed from specifically commissioned original contributions from recognised authors in the field it is the most up to date and definitive resource on the subject The volume is divided into four parts the first looks at ways of seeing hospitality from an array of social science disciplines the second highlights the experiences of hospitality from different guest perspectives the third explores the need to be hospitable through various time periods and social structures and across the globe while the final section deals with the notions of sustainability and hospitality This handbook is interdisciplinary in coverage and is also international in scope through authorship and content The state of the art orientation of the book is achieved through a critical view of current debates and controversies in the field as well as future research issues and trends It is designed to be a benchmark for any future assessment of the field and its development This handbook offers the reader a comprehensive synthesis of this discipline conveying the latest thinking issues and research It will be an invaluable resource for all those with an interest in hospitality encouraging dialogue across disciplinary boundaries and areas of study Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at [http www taylorfrancis com](http://www.taylorfrancis.com) under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
