2014 History Paper 2 Memorandum:

The Liberators of Pilsen Bryan J. Dickerson, 2018-01-14 Formed in July 1943 at Camp Chaffee Arkansas the 16th Armored Division was the last U S armored division to be activated in World War II the last deployed to the European Theater and the last to see combat As the war in Europe was coming to an end General George S Patton chose the division to spearhead a daring advance into Czechoslovakia In its first and only combat operation the 16th liberated the city of Pilsen forever endearing itself to the Czech people Poised to continue to the capital city of Prague the division was halted not by German resistance but by political rivalries between the Western powers and the Soviet Union Official U S Army records and veteran accounts tell the story of the unit s brief two year existence and its successful mission Scientific History Elena Aronova, 2021-04-02 Introduction The quest for scientific history Scientific history and the Russian locale Nikolai Vavilov genogeography and history s past future Julian Huxley s cold wars The UNESCO History of Mankind Cultural and Scientific Development Project Information socialism historical informatics and the markets Epilogue Differential Undercounts in the U.S. Census William P. O'Hare, 2019-02-13 This open access book describes the differences in US census coverage also referred to as differential undercount by showing which groups have the highest net undercounts and which groups have the greatest undercount differentials and discusses why such undercounts occur In addition to focusing on measuring census coverage for several demographic characteristics including age gender race Hispanic origin status and tenure it also considers several of the main hard to count populations such as immigrants the homeless the LBGT community children in foster care and the disabled However given the dearth of accurate undercount data for these groups they are covered less comprehensively than those demographic groups for which there is reliable undercount data from the Census Bureau This book is of interest to demographers statisticians survey methodologists and all those interested in census coverage

Crimea, Global Rivalry, and the Vengeance of History Hall Gardner, 2016-04-30 Gardner examines the causes and consequences of Russia s annexation of Crimea By analyzing alliance formations and the consequences of other annexations in world history the book urges an alternative US NATO European Japanese strategy toward both Russia and China in the effort to prevent a renewed arms race if not global war **Speaker Jim Wright** J. Brooks Flippen, 2018-04-01 Jim Wright made his mark on virtually every major public policy issue in the later twentieth century energy education taxes transportation environmental protection civil rights criminal justice and foreign relations among them He played a significant role in peace initiatives in Central America and in the Camp David Accords and he was the first American politician to speak live on Soviet television A Democrat representing Texas s twelfth district Fort Worth Wright served in the US House of Representatives from the Eisenhower administration to the presidency of George H W Bush including twelve years 1977 1989 as majority leader and speaker His long congressional ascension and sudden fall in a highly partisan ethics scandal spearheaded by Newt Gingrich mirrored the evolution of Congress as an institution Speaker Jim Wright traces the

congressman's long life and career in a highly readable narrative grounded in extensive interviews with Wright and access to his personal diaries. A skilled connector who bridged the conservative and liberal wings of the Democratic party while forging alliances with Republicans to pass legislation, Wright ultimately fell victim to a new era of political infighting as well as to his own hubris and mistakes. J. Brooks Flippen shows how Wright's career shaped the political culture of Congress from its internal rules and power structure to its growing partisanship, even as those new dynamics eventually contributed to his political demise. To understand Jim Wright in all his complexity is to understand the story of modern American politics.

Montpelier Transformed William H. Lewis, 2022-04-11 By the late 20th century Montpelier, the home of James and Dolley Madison, had been altered until it would no longer have been recognizable to the couple. In 2000 the newly created Montpelier Foundation took over management of the historic home with the seemingly insurmountable task of restoring it to be a visual record of the Madisons' era. Within ten years the Foundation overcame numerous hurdles, turning Montpelier into a monument to the Father of the Constitution. Over the next decade the site also became a monument to Montpelier's enslaved. The buildings in their community next to the Madisons' home were reconstructed and award-winning exhibits dramatically illustrate the tragedy of slavery and the essential role of enslaved people in Madison's life. Foundation co-founder William H. Lewis details the nonprofit's ambitious preservation projects and remarkable achievements. Richard M. Nixon and European Integration Joseph M. Siracusa, Hang Thi Thuy Nguyen, 2018-04-13 This book re-examines the Nixon administration's attitude and approach to the European integration project. The formulation of US policy towards European integration in the Nixon presidential years 1969-1974 was conditioned by the perceived relative decline of the United States. Western European emergence and competition, the feared Communist expansionism, and US national interests. Against that backdrop, the Nixon administration saw the need to re-evaluate its policy on Western Europe and the integration process on this continent. Underpinning this study is the extensive use of newly released archival materials from the Nixon Presidential Library and Museum, the Library of Congress, and the State Department. Furthermore, the work is based on the public papers in the American Presidency Project and the materials on the topic of European integration and unification in the Archive of European Integration. Finally, the study has extensively used newspaper archives as well as the declassified online documents, memoirs, and diaries of former US officials. Mining these sources made it possible to shed new light on the complexity and dynamism of the Nixon administration's policy towards European integration. **Defenders of Japan** Garren Mulloy, 2021-12-01 Japan's navy is three times the size of France's and Britain's combined, yet most people think it a defenceless nation. This book unravels that paradox. **Hong Kong Public Housing** Miles Glendinning, 2024-11-28 Hong Kong Public Housing provides the first comprehensive history of one of the most dramatic episodes in the global history of the modern built environment: the vast public housing programme sponsored by successive Hong Kong governments from the 1950s in a quest to build up the territory into a lasting people's home. And unlike many of its counterparts elsewhere, this is a

programme still ongoing today a case of history in progress as Hong Kong now boasts one of the world's longest lasting public housing programmes During that time it has been not just a mirror of the cultural and economic values of Hong Kong society but also a reflection of more nebulous fast changing perceptions of identity and a testament to the community building achievements of Hongkongers over these years This authoritative study combines architectural history with the broader social political and cultural aspects of housing production particularly the geo political issues of sovereignty and decolonisation that uniquely and fundamentally structured the trajectory of Hong Kong public housing and territory development Exploring the relationship between built form ideology and administrative governance it shows how massive state intervention interacted at times uneasily with Hong Kong's dominant laissez faire ethos to help maintain the legitimacy of successive administrations during an era of auto decolonisation and support an interstitial society suspended between two sovereignties Following more recent political changes Hong Kong's public housing heritage has also become a focus of nostalgic community pride a monumental achievement of home building which this book documents and celebrates for posterity

Kimball, 2015-06-15 In their initial effort to end the Vietnam War Richard Nixon and Henry Kissinger attempted to lever concessions from Hanoi at the negotiating table with military force and coercive diplomacy They were not seeking military victory which they did not believe was feasible Instead they backed up their diplomacy toward North Vietnam and the Soviet Union with the Madman Theory of threatening excessive force which included the specter of nuclear force They began with verbal threats then bombed North Vietnamese and Viet Cong base areas in Cambodia signaling that there was more to come As the bombing expanded they launched a previously unknown mining ruse against Haiphong stepped up their warnings to Hanoi and Moscow and initiated planning for a massive shock and awe military operation referred to within the White House inner circle as DUCK HOOK Beyond the mining of North Vietnamese ports and selective bombing in and around Hanoi the initial DUCK HOOK concept included proposals for tactical nuclear strikes against logistics targets and U S and South Vietnamese ground incursions into the North In early October

1969 however Nixon aborted planning for the long contemplated operation He had been influenced by Hanoi's defiance in the face of his dire threats and concerned about U S public reaction antiwar protests and internal administration dissent In place of DUCK HOOK Nixon and Kissinger launched a secret global nuclear alert in hopes that it would lend credibility to their prior warnings and perhaps even persuade Moscow to put pressure on Hanoi It was to be a special reminder of how far President Nixon might go The risky gambit failed to move the Soviets but it marked a turning point in the administration's strategy for exiting Vietnam Nixon and Kissinger became increasingly resigned to a long route policy of providing Saigon with a decent chance of survival for a decent interval after a negotiated settlement and U S forces left Indochina Burr and Kimball draw upon extensive research in participant interviews and declassified documents to unravel this intricate story of the October 1969 nuclear alert They place it in the context of nuclear threat making and coercive diplomacy since 1945 the culture of the Bomb intra governmental dissent domestic political pressures the international nuclear taboo and Vietnamese and Soviet actions and policies It is a history that holds important lessons for the present and future about the risks and uncertainties of nuclear threat making

Fault Lines of History Uma Chakravarti, 2017-01-17 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of knowledge on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators This volume the second on India addresses the question of state impunity suggesting that on the issue of the violation of human and civil rights and particularly in relation to the question of sexual violence the state has been an active and collusive partner in creating states of exception where its own laws can be suspended and the rights of its citizens violated Drawing on patterns of sexual violence in Kashmir the Northeast of India Chhattisgarh Haryana and Rajasthan the essays together focus on the long histories of militarization and regions of conflict as well as the normalized histories of caste violence which are rendered invisible because it is convenient to pretend they do not exist Even as the writers note how heavily the odds are stacked against the victims and survivors of sexual violence they turn their attention to recent histories of popular protest that have enabled speech They stress that while this is both crucial and important it is also necessary to note the absence of sufficient attention to the range of locations where sexual violence is endemic and often ignored Resistance speech the breaking of silence the surfacing of memory these as the writers powerfully argue are the new weapons in the fight to destroy impunity and hold accountable the perpetrators of sexual violence Published by Zubaan

A History of Scientific Journals Aileen Fyfe, Noah Moxham, Julie McDougall-Waters, Camilla Mørk Røstvik, 2022-10-03 Modern scientific research has changed so much since Isaac Newton's day it is more professional collaborative and international with more complicated equipment and

a more diverse community of researchers Yet the use of scientific journals to report share and store results is a thread that runs through the history of science from Newton's day to ours Scientific journals are now central to academic research and careers Their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published The journal that reported Newton's optical experiments still exists First published in 1665 and now fully digital the Philosophical Transactions has carried papers by Charles Darwin Dorothy Hodgkin and Stephen Hawking It is now one of eleven journals published by the Royal Society of London Unrivalled insights from the Royal Society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing The editorial management business practices and financial difficulties of the Philosophical Transactions and its sibling Proceedings reveal the meaning and purpose of journals in a changing scientific community At a time when we are surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history

[The Development of Ballistic Missiles in the United States Air Force, 1945-1960](#) Jacob Neufeld, 1990 Following World War II the onset of nuclear weapons long range jet bombers and ballistic missiles radically changed American foreign policy and military strategy The United States Air Force led by men of far sighted vision and uncommon dedication accepted the challenge of organizing and leading a massive research and development effort to build ballistic missiles In the quarter of the century since these weapons have constituted one of the three legs of the strategic triad the basis of America's strategy of deterring nuclear war yet they have received less attention from the public and within the Air Force than the more glamorous manned bombers of the Strategic Air Command or the missile launching submarines of the U S Navy This volume attempts to correct the imbalance by telling the story of development of Air Force ballistic Missiles It concentrates on the first generation of ballistic missiles the intercontinental Atlas and Titan and the intermediate range Thor Although the effort to develop rockets has a longer history than commonly assumed the modern history spans the relatively short era from 1945 to 1960 During this brief interval missiles advanced from drawing board to alert status where the next generation now remains poised to deter war

A Lost Peace Galen Jackson, 2023-04-15 In *A Lost Peace* Galen Jackson rewrites an important chapter in the history of the middle period of the Cold War changing how we think about the Arab Israeli conflict During the June 1967 Middle East war Israeli forces seized the Sinai Peninsula and the Gaza Strip from Egypt the Golan Heights from Syria and the West Bank and East Jerusalem from Jordan This conflict was followed in October 1973 by a joint Egyptian Syrian attack on Israel which threatened to drag the United States and the Soviet Union into a confrontation even though the superpowers had seemingly embraced the idea of détente This conflict contributed significantly to the ensuing deterioration of US Soviet relations The standard explanation for why détente failed is that the Soviet Union driven mainly by its Communist ideology pursued a highly aggressive foreign policy during the 1970s In the Middle East specifically the conventional wisdom is that the Soviets played a destabilizing role by encouraging the Arabs in their conflict with Israel in an effort to undermine the US position in the region for Cold War gain Jackson challenges standard accounts of this period demonstrating that the United States sought to exploit the Soviet Union in the Middle East despite repeated entreaties from USSR leaders that the superpowers cooperate to reach a comprehensive Arab Israeli settlement By leveraging the remarkable evidence now available to scholars Jackson reveals that the United States and the Soviet Union may have missed an opportunity for Middle East peace during the 1970s
