The future of dialects

Marie-Hélène Côté, Remco Knooihuizen, John Nerbonne, 2016-02-05 Traditional dialects have been encroached upon by the increasing mobility of their speakers and by the onslaught of national languages in education and mass media Typically older dialects are leveling to become more like national languages This is regrettable when the last articulate traces of a culture are lost but it also promotes a complex dynamics of interaction as speakers shift from dialect to standard and to intermediate compromises between the two in their forms of speech Varieties of speech thus live on in modern communities where they still function to mark provenance but increasingly cultural and social provenance as opposed to pure geography They arise at times from the need to function throughout the different groups in society but they also may have roots in immigrants speech and just as certainly from the ineluctable dynamics of groups wishing to express their identity to themselves and to the world

The future of dialects is a selection of the papers presented at Methods in Dialectology XV held in Groningen the Netherlands 11-15 August 2014. While the focus is on methodology the volume also includes specialized studies on varieties of Catalan Breton Croatian Belgian Dutch English in the US the UK and in Japan German including Swiss German Italian including Tyrolean Italian Japanese and Spanish as well as on heritage languages in Canada. *Yोजना*, 2014 **Sustainability in Contemporary Rural Japan** Stephanie Assmann, 2015-12-22 Rural communities in Japan have suffered from significant depopulation and economic downturn in post war years. Low birth rates aging populations agricultural decline and youth migration to large cities have been compounded by the triple disaster of 11 March 2011 which destroyed farming and fishing communities and left thousands of people homeless. This book identifies these challenges and acknowledges that an era of post growth has arrived in Japan. Through exploring new forms of regional employment community empowerment and reverse migration the authors address potential opportunities and benefits that may help to create and ensure the quality of life in depopulating areas and post disaster scenarios. This book will be of interest not only to students of Japanese society but also to those outside of Japan who are seeking new approaches for tackling depopulation challenges. *Advances in Scalable and Intelligent Geospatial Analytics* Surya S Durbha, Jibonananda Sanyal, Lexie Yang, Sangita S Chaudhari, Ujwala Bhangale, Ujwala Bharambe, Kuldeep Kurte, 2023-05-12 Geospatial data acquisition and analysis techniques have experienced tremendous growth in the last few years providing an opportunity to solve previously unsolved environmental and natural resource related problems. Patterson, 2020-03-02 This book builds on the highly successful *Geography of Beer* Regions Environment and Society 2014 and investigates the geography of beer from two expanded perspectives culture and economics. The respective chapters

provide case studies that illustrate various aspects of these themes As the beer industry continues to reinvent itself and its economic and cultural geographies this book showcases historical current and future trends at the local regional national and international scales *Push Back* Judith Large,2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace *Push Back* is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics Love, Money, and Parenting Matthias Doepke,Fabrizio Zilibotti,2020-11-03 Doepke and Zilibotti investigate how economic forces shape how parents raise their children They show that in countries with increasing economic inequality such as the United States parents push harder to ensure their children have a path to security and success Economics has transformed the hands off parenting of the 1960s and 70s into a frantic overscheduled activity Growing inequality has also resulted in an increasing parenting gap between richer and poorer families raising the disturbing prospect of diminished social mobility and fewer opportunities for children from disadvantaged backgrounds The authors discuss how investments in early childhood development and the design of education systems factor into the parenting equation and how economics can help shape policies that will contribute to the ideal of equal opportunity for all From publisher description **Educart CBSE Sample Paper Class 12 2025-26 - Geography (Based on latest CBSE Sample Papers Released on 30-07-25) For 2026 Board Exam** Educart,2025-10-12 The Educart CBSE Class 12 Geography Sample Paper 2025 26 book is designed to help students prepare smartly and confidently for the 2026 CBSE Board Exam It includes updated practice material theory support and solved papers based on the latest CBSE pattern Book Features 5 Solved Papers Step by step solutions for all questions as per the new CBSE 2025 26 exam format 5 Unsolved Papers Practice papers for self assessment and exam like preparation experience Chapter wise Theory Maps Covers key concepts diagrams and important map based questions for complete revision Strictly Based on Official CBSE Sample Papers 30 07 2025 100% aligned with the latest question paper design and syllabus Perfect for Class 12 Geography students aiming to boost conceptual understanding improve map skills and score high in the 2026 CBSE Board Exams Theories of Resistance Marcelo Lopes de Souza,Richard J. White,Simon Springer,2016-06-17 Space is never a neutral stage on which social actors play their roles sometimes cooperating with each other sometimes struggling against each other Space has multiple and complex functions in the development of social relations it is a reference for identity building a material condition for existence and an instrument of power This book explores the ways in which space has been used for resistance especially in left libertarian

contexts From the early anarchist organizing efforts in the 19th century to the contemporary social movements of the Mexican Zapatistas the chapters examine a range of cases to illustrate both the limits and potentialities of utilizing space within anarchist practice By theorizing the production of anarchist spaces the book aims to foster new geographical imaginations that energetically cultivate alternative practices to challenge the status quo It shows that spatial re organization spatial practices and spatial resources are also a basic condition for human emancipation autonomy and freedom General Studies Vol.2 Indian & World Geography Solved Papers (2023-24 UPSC State PSC(Pre)) Youth Competition Times , 2023 24 UPSC State PSC Pre General Studies Vol 2 Indian World Geography Solved Papers **Critical Urban Theory, Common**

Property, and “the Political” Dan Webb,2017-05-18 Dan Webb explores an undervalued topic in the formal discipline of Political Theory and political science more broadly the urban as a level of political analysis and political struggles in urban space Because the city and urban space is so prominent in other critical disciplines most notably geography and sociology a driving question of the book is what kind of distinct contribution can political theory make to the already existing critical urban literature The answer is to be found in what Webb calls the properly political approach to understanding political conflict as developed in the work of thinkers like Chantal Mouffe Jodi Dean and Slavoj i ek This properly political analysis is contrasted with and a curative to the predominant ethical or post political understanding of the urban found in so much of the geographical and sociological critical urban theory literature In order to illustrate this primary theoretical argument of the book Webb suggests that common property is the most useful category for conceiving the city as a site of the properly political When the city and urban space are framed within this theoretical framework critical urbanists are provided a powerful tool for understanding urban political struggles in particular anti gentrification movements in the inner city

International Mobility, Global Capitalism, and Changing Structures of Accumulation Anthony P. D'Costa,2015-11-19 International mobility is not a new concept as people have moved throughout history voluntarily and forcibly for personal familial economic political and professional reasons Yet the mobility of technical talent in the global economy is relatively new largely voluntary structurally determined by market forces and influenced by immigration policies With over a decade s worth of extensive research in India Japan Finland and Singapore this book provides an alternative understanding of how capitalism functions at the global level by specifically analyzing the international movement of technical professionals between India and Japan There are three factors that inform this study the services transition away from manufacturing the movement of technical professionals in the world economy and the demographic crisis facing Japan The dynamics of changing capitalism are examined by theorizing the emergence of the services sector in the USA and Japan analyzing the pronounced social inequality in India that is the basis for the global supply of highly skilled technical professionals and providing considerable empirical data on the flows of professionals to these two countries to indicate Japan s institutional inflexibility in accommodating foreign talent The author anticipates that Japanese industry will shed some of its institutional

rigidity due to the pressures of competition and the scarcity of technical professionals Providing a wealth of information on the topic of international mobility this book is an essential addition for scholars and students in the field of International Development Business Studies Asian Studies Migration Studies and Political Economy **The Knowledge Gap** Natalie Wexler, 2019-08-06 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America's education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education The problem wasn't one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention

Relational Poverty Politics Victoria A. Lawson, Sarah Elwood, 2018 This collection examines the power and transformative potential of movements that fight against poverty and inequality Broadly poverty politics are struggles to define who is poor what it means to be poor what actions might be taken and who should act These movements shape the sociocultural and political economic structures that constitute poverty and privilege as material and social relations Editors Victoria Lawson and Sarah Elwood focus on the politics of insurgent movements against poverty and inequality in seven countries Argentina India Brazil South Africa Thailand Singapore and the United States The contributors explore theory and practice in alliance politics resistance movements the militarized repression of justice movements global counterpublics and political theater These movements reflect the diversity of poverty politics and the relations between bureaucracies and antipoverty movements They discuss work done by mass and other types of mobilizations across multiple scales forms of creative and political alliance across axes of difference expressions and exercises of agency by people named as poor and the kinds of rights and other claims that are made in different spaces and places *Relational Poverty Politics* advocates for poverty knowledge grounded in relational

perspectives that highlight the adversarial relationship of poverty to privilege as well as the possibility for alliances across different groups It incorporates current research in the field and demonstrates how relational poverty knowledge is best seen as a model for understanding how theory is derivative of action as much as the other way around The book lays a foundation for realistic change that can directly attack poverty at its roots Contributors Anton dia Borges Dia Da Costa Sarah Elwood David Boarder Giles Jim Glassman Victoria Lawson Felipe Magalh es Jeff Maskovsky Richa Nagar Genevieve Negr n Gonzales LaShawnDa Pittman Frances Fox Piven Preeti Sampat Thomas Swerts and Junjia Ye
