Regional Economic Outlook, October 2014, Middle East and Central Asia, International Monetary Fund. Middle East and Central Asia Dept., 2014-10-27 This issue discusses economic developments in the Middle East North Africa Afghanistan and Pakistan MENAP which continue to reflect the diversity of conditions prevailing across the region. Most high income oil exporters primarily in the GCC continue to record steady growth and solid economic and financial fundamentals albeit with medium term challenges that need to be addressed. In contrast other countries Iraq Libya and Syria are mired in conflicts with not only humanitarian but also economic consequences. And yet other countries mostly oil importers are making continued but uneven progress in advancing their economic agendas often in tandem with political transitions and amidst difficult social conditions. In most of these countries without extensive economic and structural reforms economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards.

The Rise of Africa's Middle Class Henning Melber, 2016-12-15 Across Africa a burgeoning middle class has become the poster child for the Africa rising narrative. Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change. This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies. Bringing together economists political scientists anthropologists and development experts

and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa

OECD Economic Surveys: France 2017 OECD,2017-09-14 GDP is set to grow fairly strongly in 2017 18 supported by private consumption and investment The labour market has started to improve However productivity gains are too low to sustain social protection high quality public services and rising incomes in the long run

The Complacent Class Tyler Cowen,2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen s blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

analyzes from both standpoints and widens the discourse to include norms morality and related institutions such as social security and welfare A unique feature of the book is that it examines labor economics practices among a specific group of countries and studies the labor conditions within these countries where the majority of the population follow the teachings of Islam in their daily lives The book proposes practical strategies for the development of new models for the Islamic labor market which are compatible with the modern world The book will enable academics and practitioners of Islamic economics to make economic sense of Shari ah compliance and human resource development **Arab Middle Class** ,2014 **World of Work Report 2014** International Labor Office,2014-06-16 The World of Work Report 2014 assembles new evidence based on a detailed examination of trends and policy innovations in over 140 developing countries It finds that strategies that focus on promoting decent work opportunities tend to yield sustained development results The report also provides an evidence based contribution to the debate on the post 2015 development agenda **Arab Middle Class** Khalid Abu-Ismaïl,2014
