Post-Vietnam Dioxin Exposure in Agent Orange-Contaminated C-123 Aircraft Institute of Medicine, Board on the Health of Select Populations, Committee to Evaluate the Potential Exposure to Agent Orange/TCDD Residue and Level of Risk of Adverse Health Effects for Aircrew of Post-Vietnam C-123 Aircraft, 2015-05-20 From 1972 to 1982 approximately 1 500 2 100 US Air Force Reserve personnel trained and worked on C 123 aircraft that had formerly been used to spray herbicides in Vietnam as part of Operation Ranch Hand After becoming aware that some of the aircraft on which they had worked had previously served this purpose some of these AF Reservists applied to the US Department of Veterans Affairs VA for compensatory coverage under the Agent Orange Act of 1991 The Act provides health care and disability coverage for health conditions that have been deemed presumptively service related for herbicide exposure during the Vietnam War The VA denied the applications on the basis that these veterans were ineligible because as non Vietnam era veterans or as Vietnam era veterans without boots on the ground service in Vietnam they were not covered However with the knowledge that some air and wipe samples taken between 1979 and 2009 from some of the C 123s used in Operation Ranch Hand showed the presence of agent orange residues

representatives of the C 123 Veterans Association began a concerted effort to reverse VA s position and obtain coverage At the request of the VA Post Vietnam Dioxin Exposure in Agent Orange Contaminated C 123 Aircraft evaluates whether or not service in these C 123s could have plausibly resulted in exposures detrimental to the health of these Air Force Reservists The Institute of Medicine assembled an expert committee to address this question qualitatively but in a scientific and evidence based fashion This report evaluates the reliability of the available information for establishing exposure and addresses and places in context whether any documented residues represent potentially harmful exposure by characterizing the amounts available and the degree to which absorption might be expected Post Vietnam Dioxin Exposure rejects the idea that the dioxin residues detected on interior surfaces of the C 123s were immobile and effectively inaccessible to the Reservists as a source of exposure Accordingly this report states with confidence that the Air Force Reservists were exposed when working in the Operation Ranch Hand C 123s and so experienced some increase in their risk of a variety of adverse responses

CJEU Case Law in Direct Taxation: Territoriality and Fundamental Freedoms Stephanie Zolles, 2023-07-13 The principle of territoriality and the fundamental freedoms The tension between the fundamental freedoms and the sovereignty of the Member States is omnipresent in the CJEU s case law on direct taxation A significant number of cases concerned one of the core principles in national tax laws the principle of territoriality Although this principle is continuously mentioned in cases concerning the compatibility of direct tax measures with the fundamental freedoms the case law seems to provoke more questions than answers This book provides guidance on the meaning of territoriality in the CJEU s case law on direct taxation as well as on the role which this principle plays in the compatibility of domestic direct tax measures with the fundamental freedoms During a critical and dogmatically oriented journey through the CJEU s case law the reader can enjoy a comprehensive analysis containing references to more than 300 cases Without a doubt this timeless reflection of the tension between the principle of territoriality and the fundamental freedoms is not only interesting from a dogmatic perspective but also from a tax policy one

Detention and its Alternatives under International Law

Lorna McGregor, 2023-10-17 In theory international law provides a clear framework for ensuring the rarity of detention by either characterising a detention practice as inherently arbitrary or treating it as a measure of last resort However some critics have argued that international law prioritises procedural safeguards leaving the international law on the legitimacy necessity and proportionality of detention and its alternatives underdeveloped Detention and its Alternatives under International Law analyses the current state of the international law on detention and its alternatives within national law and policy It addresses armed conflict counterterrorism criminal justice mental health migration public health and social care The book discusses a number of topics such as shortcomings in how international law addresses structural inequality and discrimination the level of scrutiny applied to the evidence supporting decisions to detain and the availability and proportionality of alternatives to detention and their compatibility with human rights All chapters analyse how new and emerging technologies affect decisions to detain as well as the nature of alternatives to detention Without conflating different forms of detention the book proposes key means of making detention a true measure of last resort Detention and its Alternatives under International Law will be a valuable resource to practitioners and scholars working on the right to liberty or the underlying policy areas in which detention is employed as a tool

The Protection of Vulnerable Groups under International Human Rights Law

Ingrid Nifosi-Sutton, 2017-07-06 The protection of vulnerable groups varies under international human rights law Depending on the group at stake protection may be more or less advanced In some cases the international community has deemed it necessary to adopt conventions providing for the rights of certain vulnerable groups and establishing mechanisms to verify State

compliance Other groups have not been the focus of States standard setting endeavours but their protection still falls within the scope of human rights treaties of general application and the mandate of their respective monitoring bodies This book takes an innovative approach to the investigation of the international legal protection of vulnerable groups Rather than examining the situation of a number of vulnerable groups and applicable international or regional conventions this book reviews the overall scope of the protection of vulnerable groups under International Human Rights Law This book conceptualizes the protection of vulnerable groups as an underlying and essential component of International Human Rights Law through a systematic and comprehensive analysis of international human rights law instruments and relevant practice of international and regional human rights monitoring bodies The book illuminates how human rights monitoring bodies foster protection of vulnerable groups and their members at the domestic level and underscores and assesses vulnerability paradigms these bodies have elaborated The book also puts forward a legal definition of vulnerable groups This book will be of great interest to students and scholars of international human rights law *European Arrest Warrant* Libor Klimek, 2014-09-23 This book examines the European arrest warrant as a successful and effective instrument for judicial co operation in criminal matters in the European Union Providing comprehensive content and combining theoretical and practical aspects it covers all of the major issues surrounding the European arrest warrant The book analyses its genesis main features surrender procedure case law implementation and the latest developments Instead of focusing solely on a criminal law approach it also considers the subject from the perspective of European Union law and constitutional law
