argue that children s fiction offers sophisticated interventions into debates about what it means to be human and in particular about humanity s relationship to animals and the natural world In complicating questions of human identity ecology gender and technology Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children s fantasy disclosing how such fantasy can build upon earlier traditions to represent complex issues of humanness to younger audiences Interrogating the place of the human through the non human whether animal or mechanical leads this book to have interpretations that radically depart from the critical tradition which in its concerns with the socialization and representation of the child has ignored larger epistemologies of humanness The book considers canonical texts of children s literature alongside recent bestsellers and films locating texts such as Gulliver s Travels 1726 Pinocchio 1883 and the Alice books 1865 1871 as important works in the evolution of posthuman ideas This study provides radical new readings of children s literature and demonstrates that the genre offers sophisticated interventions into the nature boundaries and dominion of humanity **Telling Tales** Amit Dasgupta (Diplomat),1995 Wonderful Stories Have Been Written For Children In India These Are Available In Different Regional Languages But Little Effort Has Gone Into Popularising Them Or Making People Aware Of The Considerable Literature Available On The Subject It May Come As A
