S. Miles, 1998-09-01 The South Pacific archipelago of Vanuatu simultaneously experienced the two major types of colonialism of the modern era British and French the only instance in which these colonial powers jointly ruled the same people in the same territory over an extended period of time This in addition to its small size and recent independence 1980 makes Vanuatu an ideal case study of the clash of contemporary colonialism and its enduring legacies At the same time the uniqueness of Melanesian society highlights the singular role of indigenous culture in shaping both colonial and postcolonial political reality With its close attention to global processes *Bridging Mental Boundaries in a Postcolonial Microcosm* provides a fresh comparative approach to an island state that has most frequently been examined from an ethnographic or area studies perspective William F S Miles looks at the long term effects of the joint Franco British administration in public policy political disputes and social cleavages in post independence Vanuatu He emphasizes the strong imprint left by condocolonialism in dividing ni Vanuatu into Anglophones and Francophones but also suggest how this basic division is being replaced or overlaid by divisions based on urban or rural residence traditional or modern employment and disparities between the status and activities of men and women As such this volume is more than an analysis of a unique case of colonialism and its effects it is an interpretation of the evolution of an insular society beset by particularly convoluted precolonial colonial and postcolonial fractures Based principally on research conducted in 1991 and following a key change in Vanuatu s government a subsequent visit in 1992 the analysis is enriched by regular comparisons between Vanuatu and other colonized societies where the author has carried out original research including Niger Nigeria Martinique and Pondicherry Extensive interviews with ni Vanuatu are integrated throughout the text presenting islanders views of their own experience **Multi-Dimensional You** Elaine Seiler, 2012 AN ENERGETIC JOURNEY YOURS AND THE PLANETS Humankind is evolving the world we know is changing This book is like a very special pair of eyeglasses enabling you to see and manage this new world differently with expanded vision and skills beyond your five senses in a way you have never done before Elaine Seiler Multi Dimensional YOU will catalyze your evolution and help you recognize and more easily navigate the stages through which you will evolve You will gain CLARITY about what is occurring on the planet today in 2012 and beyond UNDERSTANDING of the changes taking place in and around you SKILLS to navigate this less physical and more vibratory world TOOLS that function in an invisible realm HOPE as you face an undetermined future TRUST in your own knowingness CONFIDENCE in your choice making abilities and INNER PEACE as you face the inevitable shifts ahead Let Seiler be your GUIDE Say good by to overwhelm confusion and anxiety as your face the future Embrace the fullness of The Multi Dimensional YOU Accurate in depth knowledge and passion You owe it to yourself to read this book Easy to read and put into

On Education and Values George David Miller, Conrad P. Pritscher, 1995 The educationally emaciated suffering from intellectual and spiritual bilumia binge on facts and linear thinking The imprimatur of clarity and the infatuation with quantification are accoutrements of this affliction often characterized by apathy Chaos is introduced as the wrecking ball for the hierarchical skyscrapers that overcrowd the educational skyline The type of chaos proposed can be explained by the neutron bomb analogy Chaos destroys all that is inessential but leaves standing the essential and promotes holistic rather than compartmentalized learning The authors further contend that one insight is better than a myriad of facts in being vigilant of serendipity that the value aspect of facts is as important as the facts themselves Such beliefs form a foundation for educational holism Our goal is to popularize philosophy in the same way science has become popular without a mass understanding Empiricism is criticized for creating the theoretical basis for fragmentation forming the basis for an island ideology by excising essence Founded on inessential empirical ideology efforts to teach multiculturalism merely exacerbate difference promote alienation and discourage tolerance Within the framework of value hierarchies we favor tolerance is not understood as open armed acceptance of just anything but the forbearance of an evil for the promise of greater good Essence cannot be removed even in the idiosyncratic we can find the essential In the absence of chaotic methodology critical thinking remains an apolitical amoral and atemporal process displaced from social and political reality We propose a critical thinking that is not legalistic but is action oriented The pipe dream for education is a political moral temporal and decompartmentalized critical thinking that disseminates philosophy across the curriculum Those who risk becoming pariahs and nomads are essential to the rejuvenation of the educational system
