Purple Haze Joseph Levine,2001-01-04 Conscious experience presents a deep puzzle On the one hand a fairly robust materialism must be true in order to explain how it is that conscious events causally interact with non conscious physical events On the other hand we cannot explain how physical phenomena give rise to conscious experience In this wide ranging study Joseph Levine explores both sides of the mind body dilemma presenting the first book length treatment of his highly influential ideas on the explanatory gap the fact that we can t explain the nature of phenomenal experience in terms of its physical realization He presents a careful argument that there is such a gap and after providing intriguing analyses of virtually all existing theories of consciousness shows that recent attempts to close it fall short of the mark Levine concludes that in the foreseeable future consciousness will remain a mystery *The Grand Bargain--should the West Bankroll Soviet Transformation to a Free Market Economy?* United States.
