Magazines, Tourism, and Nation-Building in Mexico Claire Lindsay,2018-11-20 This open access book discusses the relationship between periodicals tourism and nation building in Mexico It enquires into how magazines a staple form of the promotional apparatus of tourism since its inception articulated an imaginative geography of Mexico at a time when that industry became a critical means of economic recovery and political stability after the Revolution Notwithstanding their vogue popularity reach and close affiliations to commerce and state over several decades magazines have not received any sustained critical attention in the scholarship on that period This book aims to redress that oversight It argues that illustrated magazines like Mexican Folkways 1925 1937 and Mexico This Month 1955 1971 offer rich and compelling materials in that regard not only as unique tools for interrogating the ramifications of tourism on the country s reconstruction but as autonomous objects of study that form a vital if complex part of Mexico s visual culture      **The Silver Wolf** Rob
