Perone,2017-11-10 A valuable resource for James Taylor fans and a fascinating read for anyone interested in autobiographical popular music of the past 50 years What kinds of unusual musical forms and lyrical structures did American singer songwriter James Taylor incorporate into his songs What role did Taylor play in the introspective singer

songwriter movement of the 1970s How did Taylor write and record songs that were inspired from his own experiences in life that touched so many other people The Words and Music of James Taylor explores these specific topics and provides detailed critical analysis of the songs and recordings of this well known musical icon examining his melodic writing his use of harmony and his often unappreciated tailoring of musical form to enhance his lyrical messages The book is organized chronologically primarily around Taylor s studio albums from 1968 to 2015 and offers an introduction a summary of Taylor s career and importance as well as an annotated bibliography and discography The final section of the book presents an overview of Taylor s importance and lasting impact an analysis of themes that run through his songs and an explanation of how Taylor s treatment of these themes changed over the years as he matured and as the world around him changed *The Greenwood Encyclopedia of African American Folklore* Anand Prahlad,2006 [The Greenwood Encyclopedia of African American Folklore: Q-Z](#) Anand Prahlad,2006 Contains over seven hundred entries on African American folklore including music art foodways spiritual beliefs and proverbs **The Encyclopedia of Popular Music: Selected Albums. Bibliographies** Colin Larkin,2006 Containing 27 000 entries and over 6 000 new entries the online edition of the Encyclopedia of Popular Music includes 50% more material than the Third Edition Featuring a broad musical scope covering popular music of all genres and periods from 1900 to the present day including jazz country folk rap reggae techno musicals and world music the Encyclopedia also offers thousands of additional entries covering popular music genres trends styles record labels venues and music festivals Key dates biographies and further reading are provided for artists covered along with complete discographies that include record labels release dates and a 5 star album rating system **Jazz Times** ,1997 America s jazz magazine Feb 1991 *Psychedelic Music in San Francisco* Craig Morrison,2000 Psychedelic rock began in 1965 and was popular until around 1970 Its most important centres were San Francisco the city of its origin and London One of its chief features was the attempt to translate into musical terms the effects of hallucinogenic drugs especially LSD which had become available in artistic circles in the early 1960s and was legal until 1966 San Francisco psychedelic music took its ideology from the folk music revival of the 1950s which many of its most important practitioners had participated in including Jerry Garcia of the Grateful Dead Janis Joplin of Big Brother and the Holding Company and members of the Jefferson Airplane The catalyst for the folk revival musicians to adopt the rock band format was the British Invasion which began in 1964 with the arrival in America of the Beatles Psychedelic music is examined in relation to an original seven stage model of style evolution that is developed in the thesis It looks beyond the heyday of the music tracing the legacy of its decline and eventual revival in the present The thesis offers detailed musical analyses that identify key structures or matrices in the evolution of the style Much of the contextual evidence derives from original field work involving interviews with musicians and industry representatives who were part of the San Francisco scene
