Allegory Of The Cave Text:

Philosophical Interpretations Robert J. Fogelin, 1992-01-30 Robert Fogelin here collects fifteen of his essays organized around the theme of interpreting philosophical texts. The essays place particular emphasis on understanding the argumentative or dialectical role that passages play in the specific context in which they occur. The somewhat surprising result of taking this principle seriously is that certain traditional well worked texts are given a radical re interpretation. Throughout the essays reprinted here Fogelin argues that when carefully read the philosophical position under consideration has more merit than commonly believed. Included are essays dealing with texts from the works of Plato Aquinas Hume Berkeley Kant Price Hamilton and Wittgenstein.

Illness as Narrative Ann Jurečič, 2012-03-12 For most of literary history personal confessions about illness were considered too intimate to share publicly. By the mid twentieth century however a series of events set the stage for the emergence of the illness narrative. The increase of chronic disease the transformation of medicine into big business the women's health movement the AIDS HIV pandemic the advent of inexpensive paperbacks and the rise of self publishing all contributed to the proliferation of narratives about encounters with medicine and mortality. While the illness narrative is now a staple of the publishing industry the genre itself has posed a problem for literary studies. What is the role of criticism in relation to personal accounts of suffering? Can these narratives be judged on aesthetic grounds? Are they a collective expression of the lost intimacy of the patient doctor relationship? Is their function thus instrumental to elicit the reader's empathy? To answer these questions Ann Jurecic turns to major works on pain and suffering by Susan Sontag Elaine Scarry and Eve Sedgwick and reads these alongside illness narratives by Jean Dominique Bauby Reynolds Price and Anne Fadiman among others. In the process she defines the subgenres of risk and pain narratives and explores a range of critical responses guided alternately by narrative empathy the hermeneutics of suspicion and the practice of reparative reading. Illness as Narrative seeks to draw wider attention to this form of life writing and to argue for new approaches to both literary criticism and teaching narrative. Jurecic calls for a practice that's both compassionate and critical. She asks that we consider why writers compose stories of illness how readers receive them and how both use these narratives to make meaning of human fragility and mortality.

The Narrative Reader Martin McQuillan, 2000 The Narrative Reader aims to provide a comprehensive survey of narrative theories ranging from Plato to Post Structuralism. The selection of texts is bold and broad demonstrating the extent to which narrative permeates the entire field of literature and culture. It shows the ways in which narrative crosses disciplines continents and theoretical perspectives and is a long overdue and welcome addition to the field. The Narrative Reader will fascinate students and researchers alike providing a much needed point of entry to the increasingly complex field of narrative theory.
