Admission Date Pwani University:

The Higher Education Institutions Handbook ,2012 *Creating the New African University* ,2023-05-25 Creating the New African University grapples with the existence of African universities particularly in post independent Africa where Higher Education Institutions HEIs are supposed to live up to the expectations of being adaptive in dealing with prevalent complex dynamic contemporary and future challenges facing African societies The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa s development through generating and transforming knowledge into actions for the common good It engages issues within the context of how post colonial transformative obligations have been managed in light of the prevalent epistemological and pedagogical underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies This book further highlights an urgent need to do away with silos and embrace a multidisciplinary interdisciplinary transdisciplinary and cross disciplinary dialogical approach towards knowledge generation Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements **Impact of Global University**

Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire,Tella, Adeyinka,2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world It has been observed that the top ranked universities attract major financial commitments from the industry the best students quality researchers and a wide range of other quality endowments such as equipment libraries and laboratories It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world including the developing countries Impact of Global University Ranking Systems on Developing Countries presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research Covering key topics such as assessment ethics and academic freedom this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students *Promoting Gender Equity in Selected Public Universities of Kenya* Jane Onsongo,2011 The purpose of this study was to examine sustainable gender equity interventions in selected public universities The study used descriptive survey and case study research methods to carry out an in depth analysis of the gender equity interventions in selected public universities in Kenya The sample consisted of four public universities that were selected because they had established gender centers institutes that were assumed to be coordinating gender equity intervention The study has the following objectives To

establish the existing gender inequalities in the formal organisational structure of the selected universities To identify and assess sustainability of gender equity interventions in the selected public universities To analyse the national regional international and organisational culture and policy contexts that have influenced and supported the introduction of the identified gender equity interventions To investigate the attitudes of staff students and management towards the gender equity interventions and to recommend appropriate institutional strategies to address existing gender inequities

Technology Driven Curriculum for 21st Century Higher Education Students in Africa Meda, Lawrence, Makura, Alfred H., 2017-08-16 The book consists of novel and empirical research in broad areas of technology and curriculum in selected African countries The central theme of the book is technology and the higher education curriculum The book consists of case studies from selected African countries namely Lesotho Namibia Kenya South Africa Zimbabwe Tanzania and Nigeria These studies confirm that in this contemporary digital era educational technology is playing an increasingly important role It has become so ubiquitous and fundamental in the teaching and learning Higher education sectors across the continent are increasingly compelled to use educational technology to keep up with needs of 21st century students who want to be afforded opportunities to be able to learn in real time anytime and on their own terms using opportunities for creative innovation made possible by new information and communication technologies

Assessment of RUFORUM member universities in Kenya Mose, Lawrence, Gao, Lang, Beintema, Nienke M., 2018-11-29 Credible quantitative and qualitative information on existing capacities in agricultural higher education agencies in Africa are important for decisionmakers at national regional and international levels Decisionmakers require data and indicators for strategic planning policy formulation setting priorities and benchmarks measuring progress toward benchmarks and identifying capacity gaps Decisionmakers need a better understanding of the specifics of existing staffing and student capacities in the higher education sector as well as in the wider agricultural innovation systems in Africa south of the Sahara Access to such information will result in better policies addressing capacity issues in agricultural higher education research extension and other areas The existence of such information however remains extremely limited

Precision Medicine in Africa: Promises and Opportunities Fouzia Radouani, Lyndon Zass, Faisal M. Fadlilmola, 2025-11-20 The relevance of genomic medicine embodies using an individual's genomics and molecular genetic information to personalize treatment and predict drug response to ensure safer and more cost effective therapies An African framework for implementing genomic medicine was recently developed to highlight the elements required within the African context and provide some recommendations on how African countries can work on putting them in place by building on existing infrastructure These measures would enable resource limited countries to implement appropriate genomics based health related interventions drawing on experiences from elsewhere but adapting to the African context where necessary In developing the framework the existing genomic medicine activities in Africa were investigated This book aims to describe the current status of precision medicine and

discuss the clinical studies related to precision medicine that have been conducted on African populations to improve healthcare in Africa. This book comprises three sections: infectious diseases, non-communicable diseases, and bioinformatics tools and resources. Each section is covered in several chapters, each dealing with a specific disease or group of diseases together with the necessary formalism. Based on existing literature, the collection summarizes Africa's state of the art of genomics and precision medicine activities. The book is helpful for researchers, clinicians, and policymakers; the secondary audience is students, funders, and healthcare staff. This is an open access book. *Stories of change* Pye-Smith, C., 2014-04-30

Providing a snapshot of CTA's achievements during the last decade, this book is a celebration rather than a conventional impact assessment. Under six broad chapter headings: producer organisations, policy action, ICTs, research and development, providing information to farmers and trade and markets, it gives a fascinating insight into the broad range of activities that CTA has supported through partnerships across Africa, the Caribbean, and the Pacific ACP. **Optimization, Machine**

Learning, and Fuzzy Logic: Theory, Algorithms, and Applications Mzili, Toufik, Arya, Adarsh Kumar, Pamucar, Dragan, Shaheen, Momina, 2025-02-20. Optimization, machine learning, and fuzzy logic are fundamental in the field of computational intelligence, each contributing to solving complex problems across various domains. Optimization techniques focus on finding the best solutions to problems by improving efficiency and minimizing resources. Machine learning enables systems to learn from data, making predictions or decisions without being programmed. Fuzzy logic deals with uncertainty and imprecision, allowing for flexible decision-making processes. Together, these theories, algorithms, and applications solve challenges in fields such as engineering, finance, and healthcare, where traditional methods often fall short. The continued application and exploration of these disciplines may unveil new possibilities for advanced problem-solving and intelligent systems. Optimization, Machine Learning, and Fuzzy Logic: Theory, Algorithms, and Applications explores optimization techniques, fuzzy logic, and their integration with machine learning. It covers fundamental concepts, mathematical foundations, algorithms, and applications, providing a holistic understanding of these domains. This book covers topics such as disease detection, deep learning, and text analysis and is a useful resource for engineers, data scientists, medical professionals, academicians, and researchers. **Research Handbook on Leadership in Healthcare** Naomi Chambers, 2023-09-06

This timely Research Handbook provides a comprehensive and transdisciplinary overview of current research in the field of health leadership. Emphasising diverse perspectives and under-explored issues, it calls for a sustainable future embracing social justice, technological innovation, and artificial intelligence, patient-centredness of care, and the fair treatment of workers. This title contains one or more Open Access chapters.
