and rehabilitation neurology and psychiatry and a format that mirrors the board exam outline

Integrated Care for Complex Patients Steven A. Frankel, James A. Bourgeois, 2018-03-21 This book presents case based descriptions of models for the inclusive multispecialty and multidisciplinary clinical care of complex cases. Cases range from primary care patients with complex systemic medical and psychiatric comorbidity to those requiring specialty care to those with potentially terminal illnesses. While each category and case has its unique requirements often necessitating different models of care, the commonalities in approaching complex clinical situations is underscored. Extended case narratives written by the treating physicians summarizing both the course of clinical care and physicians' reflections on the challenges of managing complex patients comprise the bulk of the book. Five additional chapters on systems issues associated with care of complex patients together with a chapter on end of life considerations, a narrative analysis of the physicians' reflections about complex patients, and a concluding chapter are prominently included to anchor the case narratives. Written by experts in the field, these descriptions form unique models for assessing and treating complex cases. *Integrated Care for Complex Patients* is a useful guide for all health practitioners and health administrators who are responsible for clinically complex cases including physicians in primary care and psychiatry, physician assistants and nurse practitioners, and psychologists.

Geriatric Practice Audrey Chun, 2019-10-29 This book serves as a comprehensive reference for the basic principles of caring for older adults directly corresponding to the key competencies for medical students and residents. These competencies are covered in 10 sections, each with chapters that target the skills and knowledge necessary for achieving competency. Each of the 45 chapters follows a consistent format for ease of use, beginning with an introduction to the associated competency and concluding with the most salient points for mastery. Chapters also include brief cases to provide context to the clinical reasoning behind the competency, strengthening the core understanding necessary to physicians of the future. Written by expert educators and clinicians in geriatric medicine, *Geriatric Practice* is a key resource for students in geriatric medicine, family and internal medicine specialties, hospice, and nursing home training, and all clinicians studying to work with aging patients.

Occupational Therapy with Aging Adults - E-Book Karen Frank Barney, Margaret Perkinson, 2024-06-21 Get all the information you need to work holistically, creatively, and collaboratively when providing services for older adults with Karen Frank Barney, Margaret A. Perkinson, and Debbie Laliberte Rudman's *Occupational Therapy with Aging Adults*, 2nd Edition. Emphasizing evidence-based, occupation-based practice and a collaborative interdisciplinary approach, this text walks students and practitioners through the full range of gerontological occupational therapy practice, inclusive of working with individual clients to working at systems and societal levels. Over 80 leaders in their respective topical areas contributed to the book's 33 chapters, including the conceptual foundations and principles of gerontological occupational therapy, biopsychosocial age-related changes, environmental forces shaping occupational participation for older adults, the continuum of health care, as well as implications for communities and the attributes, ethical responsibilities, and roles involved in

gerontological occupational therapy This edition also covers topical OT issues that are crucially important to an aging population such as diversity and inclusion disability and aging sexuality technology telehealth and virtual environments intergenerational connections updates on dementia research and caring for someone with dementia occupational justice and aging age inclusive communities and an expanded section on hearing to ensure your students are well versed in every aspect of this key practice area UNIQUE Intraprofessional and interprofessional approach to intervention emphasizes working holistically and collaboratively in serving older adults UNIQUE Chapter on the wide range of physiological musculoskeletal and neurological changes among the aging patient population highlights related occupational performance issues Case examples help you learn to apply new information to actual client and community situations Chapter on evidence based practice discusses how to incorporate evidence into clinical or community settings Questions at the end of each chapter can be used for discussion or other learning applications UNIQUE Chapters on nutrition food insecurity and oral health explore related challenges faced by older adults Chapter on ethics provides a deeper understanding of how to address challenging ethical dilemmas
