2025-26 RRB JE CBT-II Study Material YCT Expert Team , 2025 26 RRB JE CBT II Study Material 352 695 E This book covers Basics of Environments Basics of Computer Physics Chemistry and General Awareness *From GCSEs to EBCs* Great Britain. Parliament. House of Commons. Education Committee, 2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals

Britain: Parliament: House of Commons: Education Committee,2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

Teacher Status and Professional Learning Linda Clarke,2025-02-28 The concepts of status and professionalism are key issues in teaching and teacher education across the United Kingdom and internationally While there is increasing recognition that high quality teachers are crucial this coexists with a persistent culture of blaming and shaming them Student teachers will live out their careers within this maelstrom so need to be encouraged to consider the place of their profession both locally and globally and teacher educators can support them to make a realistic yet ambitious analysis This book answers a fundamental need for teachers to position themselves in their professional world It uses an innovative Place Model to explore the professional learning of teachers examining place in terms of both hierarchical status and as a cumulative journey of professional learning within ever expanding horizons It looks at the nature of professionalism why teacher status is important where trainees might fit within the model and what infrastructure needs to be in place to support teachers career long professional learning
