not only for the body but also for the body's overall current and future well being. Check out some of these benefits:

- Encourages Weight Loss** As explained in the section above, when the body is starved of carbs, it begins to use the fat stores for energy. This leads to faster weight loss. There is not only fat loss but also water loss. Carbs hold water in the body, so when they are eliminated, the kidneys begin to excrete sodium and water.
- Increased Good Cholesterol** There is good and bad cholesterol. HDL, good, is increased when we eat good fats. This builds up and protects our arteries from blocking.
- Disease Prevention** The Keto diet reduced blood pressure and bad cholesterol, which significantly reduced the risk of developing future diseases.
- Increased Energy Levels** Energy from fat lasts longer than energy from glucose. People have found that their performance is enhanced when on a Keto diet.
- Reduced Hunger** Hunger really is the worst aspect of dieting. It is the main reason why so many people fail on their weight loss journeys. So one of the great benefits of eating low carb is that it actually reduces appetite. This does not happen straight away but after around 2 weeks, more people say they have to force themselves to eat. A high fat and protein diet causes people to stay fuller for longer, and feelings of hunger are reduced.
- Can Help Manage Current Illnesses** These days, people have been turning to natural remedies to cure their illnesses. Many cancer patients or those with diabetes use the Keto diet to fight their sickness. This book will give you the actionable tips and ways to get you started on the ketogenic diet, providing you not only with the why but more importantly, the how to kick off this ketogenic diet program. Through this structured program, get yourself access to inches in reduction off body measurements, enjoy and maintain a better mood, as well as improve your overall health and wellness step by step. Take the first step to improving your life now.
