Cevasco, Richard P. Harmond, 2009-04-27 Modern American Environmentalists profiles the lives and contributions of nearly 140 major figures during the twentieth century environmental movement Included are iconic environmentalists such as Rachel Carson E O Wilson Gifford Pinchot and Al Gore and important but less expected names including John Steinbeck and Allen Ginsberg The entries recount how each individual became active in environmental conservation detail his or her significant contributions trace the influence of each on future efforts and discuss the person's legacy The individuals selected for the book displayed either an unparalleled commitment to the conservation preservation restoration and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century With a foreword by environmental historian Everett I Mendolsohn a time line of key environmental events a bibliography of groundbreaking works and an index organized by specialization this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement Mark Harvey **American Studies, Ecocriticism, and Citizenship** Joni Adamson, Kimberly N. Ruffin, 2013 This collection reclaims public intellectuals and scholars important to the foundational work in American Studies that contributed to emerging conceptions of an ecological citizenship advocating something other than nationalism or an exclusionary ethics of place Co editors Adamson and Ruffin recover underrecognized field genealogies in American Studies i e the work of early scholars whose scope was transnational and whose activism focused on race class and gender and ecocriticism i e the work of movement leaders activists and scholars concerned with environmental justice whose work predates the 1990s advent of the field They stress the necessity of a confluence of intellectual traditions or interdisciplinarity in meeting the challenges presented by the anthropocene a new era in which human beings have the power to radically endanger the planet or support new approaches to transnational national and ecological citizenship Contributors to the collection examine literary historical and cultural examples from the 19th century to the 21st They explore notions of the common namely common humanity common wealth and common ground and the relation of these notions to often conflicting definitions of who or what can have access to citizenship and rights The

book engages in scholarly ecological analysis via the lens of various human groups ethnic racial gendered coalitional that are shaping twenty first century environmental experience and vision Read together the essays included in American Studies Ecocriticism and Citizenship create a methodological commons where environmental justice case studies and interviews with activists and artists living in places as diverse as the U S Canada Haiti Puerto Rico Taiwan and the Navajo Nation can be considered alongside literary and social science analysis that contributes significantly to current debates catalyzed by nuclear meltdowns oil spills hurricanes and climate change but also by hopes for a common future that will ensure the rights of all beings human and nonhuman to exist maintain and regenerate life cycles and evolutionary processes *Spare the Birds!* Carolyn Merchant, George Bird Grinnell, 2016-01-01 P Q R S T V W Y *Bibliography of North American Invertebrate Paleontology* Charles Abiathar White, 1878 **Code of Federal Regulations** , 2002 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **A Passion for Birds** Mark Barrow, 2000-02-27 In the decades following the Civil War as industrialization urbanization and economic expansion increasingly reshaped the landscape many Americans began seeking adventure and aesthetic gratification through avian pursuits By the turn of the century hundreds of thousands of middle and upper class devotees were rushing to join Audubon societies purchase field guides and keep records of the species they encountered in the wild Mark Barrow vividly reconstructs this story not only through the experiences of birdwatchers collectors conservationists and taxidermists but also through those of a relatively new breed of bird enthusiast the technically oriented ornithologist In exploring how ornithologists struggled to forge a discipline and profession amidst an explosion of popular interest in natural history *A Passion for Birds* provides the first book length history of American ornithology from the death of John James Audubon to the Second World War Barrow shows how efforts to form a scientific community distinct from popular birders met with only partial success The founding of the American Ornithologists Union in 1883 and the subsequent expansion of formal educational and employment opportunities in ornithology marked important milestones in this campaign Yet by the middle of the twentieth century when ornithology had finally achieved the status of a modern profession its practitioners remained dependent on the services of birdwatchers and other amateur enthusiasts Environmental issues also loom large in Barrow's account as he traces areas of both cooperation and conflict between ornithologists and wildlife conservationists Recounting a colorful story based on the interactions among a wide variety of bird lovers this book will interest historians of science environmental historians ornithologists birdwatchers and anyone curious about the historical roots of today's birding boom
